ABSTRACT

This internship report provides an overview of my two months internship experience at Reliance Ritu Kumar Pvt. Ltd. During this period, I had the opportunity to immerse myself in the day-to-day operations of the organization and contribute to various projects and tasks.

The report begins with an introduction to the organization, including its mission, goals, and the industry it operates in. It also highlights the department or team I was assigned to and the primary responsibilities I undertook during my internship.

One of the key focuses of my internship was to learn the design process, where I was given the task to complete handover files and to follow colorways of mainline garments. This project provided valuable insights into how we can use different elements to enhance the surface of a garment and that only designing a garment isn't important rather its functionality in daily life matters. Additionally, I had the chance to collaborate with a diverse team of professionals, which enhanced my teamwork and communication skills.

Throughout the internship, I encountered various challenges, such as RM meet in which the collections are showcased in front of head designers, and they select the group they like. In which we had to help models change and walk according to the magazine one after another in a short period of time.

Overcoming these challenges allowed me to develop problem-solving abilities and adaptability in a real-world work environment.

In conclusion, my internship at Reliance Ritu Kumar Pvt. Ltd. was a transformative experience that deepened my understanding of process flow in design house and equipped me with practical skills that will be invaluable in my future career. I am grateful for the opportunity to have been a part of this dynamic organization and look forward to applying the knowledge and experiences gained during my internship to future endeavors.
