ACKNOWLEDGEMENT

I would like to express my special thanks to my teachers who gave me opportunity to do this file of understanding the self. I came to know about so many new things.

I am really thankful to my teachers and friends who helped me in the finalizing the file within limited time period.

Co-Curricular Activities

Co-curricular activities are those activities that are undertaken along with academic studies. Typically, co-curricular activities are those activities that are carried out outside the normal classrooms, but they supplement the academic curriculum and help in learning by doing. These activities help students to develop problem-solving, reasoning, critical thinking, creative thinking, communication and collaborative abilities.

Co-curricular activities in school might be compulsory such as music, art, or drama classes that take place during the day. Others could be voluntary, such as participating in a school sports team, school debating teams or student newsletters editorial team. In either case, participation helps students in emotional development, social skill development and overall personality development. Therefore, the importance of co-curricular activities is immense.
