SMART FURNITURE DESIGNS AND DETAILS INCLUDING 3D RENDERINGS, PLANS ELEVATION AND SIDE VIEWS

Introduction: Smart furniture is an important component of smart city. This type of furniture requires analysis of space and user as it has to be designed according to that. Furniture that can be modified easily according to the use can come under smart furniture category for example foldable couch, chairs, beds etc. multi-purpose furniture are also a part of the smart furniture category. For example, convertible couch, bed, table etc.

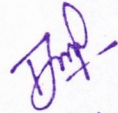

Advantages:

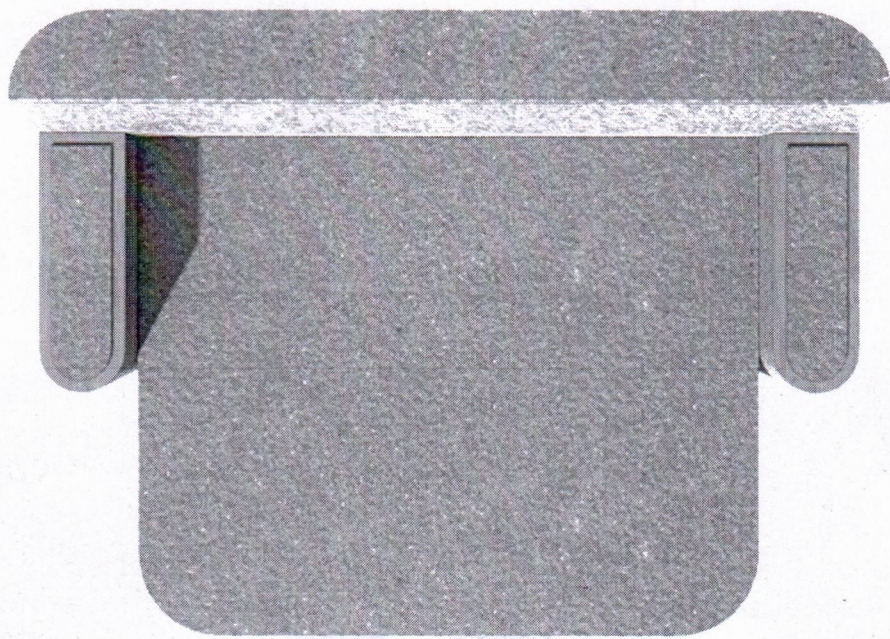

1. It saves space as it is foldable.
2. It is Aesthetically more pleasing as we can choose the color and texture as per our choice.
3. It is Customizable
4. Multi-purpose as it has more than one use.
