Introduction

Intellectual Property Right plays a significant role in acquisition of advantageous position to stimulate commercial advancement of any nation. India enjoys a great benefit in terms of researchers, renowned educational institutions and infrastructural facilities. To celebrate the achievements of the country and its people, the Ministry of Education and UGC is commemorating 'Azadi ka Amrit Mahotsav' and through this program, they have laid down emphasis on creating awareness amongst researchers and students regarding on Intellectual Property Rights through its letter D.O.No.1-312022(e.Gov) dated March 10, 2022. They want universities to organize seminars and training programs on this issue. Furthermore, scientists and policy makers need more information, orientation and facilities for protecting the products of intellectual prowess of Indian Scientists. Intellectual property is a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks as well as trade secrets, publicity rights etc. Artistic works like music and literature, as well as some discoveries, inventions, words, phrases, symbols, and designs can

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. The seminar created a great impact on the entire audience. It was envisaged how IPR provides total control over a new innovation and its creator. Faculty needs to create a platform for students to discuss innovation ideas amongst themselves. It is important to understand how small innovations influence societies at large and how students and faculties should indulge in innovating and patenting ideas that will be useful for all the classes of individuals in the society.

Further Scope:

These programs are essential for researchers for facilitating them guidance and deep understanding of the problems through interaction with experts. IQAC will hold such sessions in future to answer individual queries of researchers regarding IPR and take forward the mission of UGC and Govt. of India for creative and innovative India.
