# Message

from the Chairman

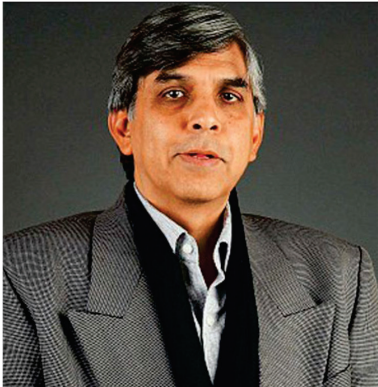

It is with a sense of elation that I present the Annual Report 2019-20 which, spans the journey of KR Mangalam University. KR Mangalam University lays special emphasis on all-round development and class-apart education through its interactive learning and two-way communication processes. This aids in making the learning environment sincere and responsive. The aim of the university is to constantly ensure that its students are provided with all facilities possibly required, so that they may hone their potential and develop a constructive attitude towards life. KR Mangalam University maintains a proud record of evolving efficient, confident and learned technocrats, pharmacists, managers, and entrepreneurs with global thinking and a futuristic mindset. As members of a corporate community, we still do practice active sustainable development goals. As Chairman of the Sponsoring Body and Member of Governing Body, KR Mangalam University, I would like to acknowledge the consistent efforts of all our faculty members and staff who have strived to make the academic year 2019-20 noteworthy in all respects.

**Shri Yash Dev Gupta**

Chairman, K.R Mangalam University

# Message

from the Chancellor

K. R. Mangalam University has come a long way and accomplished many things. It has succeeded in redefining education through productive and constructive efforts. Our pedagogy relies far less on mechanical learning and blackboard-based learning. Instead, it is far more inclined towards 'hands on' project-based learning. We have also redefined our assessment methods to make the examination process a means of enabling the student. We encourage a culture of innovation, entrepreneurship, and creativity. We are perhaps the only university in India that offers and initiates activities like building and creating a Smart Village. Our connections with universities such as Middlesex University, London and the HRD Ministry's E-Yantra robotics programme have proved to be very useful. We are also fortunate to have partnered with the Pranab Mukherjee Foundation for so many creative activities in different ways that have benefited our students. We boast of having distinguished Professors and leading experts from the corporate and knowledge world on board. Our board of governors boasts of leading and highly respected experts from across the world in finance, IT, design, management, and industry. All in all, the most important test of our progress is the air of vibrancy, energy, and creativity that we have inculcated in our students and faculty. I thus congratulate, through this message, the entire K.R. Mangalam family for having taken the university forward so effectively.

**Prof. Dinesh Singh**

Chancellor, K.R Mangalam University

# Message

from the Vice Chancellor

Dear all, building a foundation can be difficult. From completing one's studies in a place to making it stand tall and survive all tests of time, loving a place and nurturing it takes efforts. The faculty at KRMU does this for the students and the university and the university always has their back. Transitioning from a place of study where there is the freedom to explore, to learn, and to establish long-lasting bonds with fellow students to a place of work and career may seem daunting and challenging at first especially in the uncertain times we live in; the University, through its over-all development system prepares everyone for all challenges. We are proud of our achievements, accomplishments, and willingness to learn and be open to new possibilities, our technological ventures, our streamlined decisions with regard to building constructive committees and so on. This is all a wonderful testimony to the creative talent and hard work of our management, leadership, and faculty who have acted as superb and capable guides and mentors to our students.

**Prof. Aditya Malik**

(Vice Chancellor, KR Mangalam University)
