The DIA club of SOAD is planning an Origami workshop on 7<sup>th</sup> October 2022. Origami is the art of paper folding, which is often associated with Japanese culture. In modern usage, the word "origami" is used as an inclusive term for all folding practices, regardless of their culture of origin. "Folding gives you a way to think about shape transformation." Since paper is readily available, It helps to understand design thinking concepts in a short period of time. This activity will help the students to boost and develop their thinking capabilities and come up with creative design.

For this event, the DIA club proposes to invite Ar. Sathak Luthra to conduct this workshop and enrich the students with his experience with origami in design.
