## ABOUT THE UNIVERSITY

K.R. Mangalam University (KRMU), a rapidly growing educational hub located in Millennium City, Gurugram is emerging as a quality institution in higher education. Backed by the esteemed K.R. Mangalam Trust, renowned for its excellence in education, KRMU inherits a legacy of trust and quality. The university provides a conducive environment for teaching, research, creativity, and social and economic development, implementing innovative teaching methods and emphasizing real-world applications.

KRMU offers extensive facilities, including smart classrooms, hi-tech labs, sports facilities, safe hostels, hangout spaces, a gym, and a comprehensive library. It places a strong emphasis on holistic student development through mentoring, activity-based learning, industry interactions, and skill-building sessions. With state-of-the-art infrastructure, a successful placement cell, and continuous academic advancements, KRMU offers undergraduate, postgraduate, and Ph.D. programmes across a wide range of fields like Engineering, Hotel Management, Agriculture, Pharmacy, Law, Architecture & Design, Computer Application, Business Administration, Education, Science, Arts, English, Economics, Commerce and Fashion & Media.

While still in its growing phase, KRMU has already demonstrated impressive progress and envisions becoming a premier private university in India.

# MESSAGE FROM THE CHANCELLOR

**Prof. Dinesh Singh**  
**Chancellor**

As we stand ourselves on the cusp of another academic year, I am filled with a profound sense of gratitude and anticipation. Our university, with its rich history and vibrant community, stands as a beacon of knowledge and innovation in our society.

The pages of *Reflections*, our annual magazine, serve as a canvas upon which we paint the diverse hues of our academic journey. It is a testament to the collective efforts of our students, faculty, staff, and alumni who tirelessly strive for excellence in their respective endeavors.

This year, as we reflect on the challenges and triumphs that have shaped us, let us also look forward with hope and determination. Our commitment to fostering intellectual curiosity, nurturing talent, and advancing knowledge remains unwavering.

Within these pages, you will find stories of resilience, creativity, and discovery. From groundbreaking research to artistic expression, each contribution embodies the spirit of our university community.

As we navigate the ever-changing landscape of higher education, let us remember that our strength lies in our unity. Together, we can overcome any obstacle and continue to push the boundaries of what is possible.

I extend my heartfelt thanks to all who have contributed to this year's edition of *Reflections*. Your dedication and passion are truly inspiring, and I am honored to lead such an exceptional institution.

May this magazine serve as a source of inspiration and pride for years to come.

Warm Regards  
Prof. Dinesh Singh

# MESSAGE FROM THE PRO-CHANCELLOR

**Shri Abhishek Gupta**  
**Pro-Chancellor**

As I reflect on the remarkable journey of our university over the past year, I am filled with immense pride and gratitude. This annual magazine is more than a collection of achievements—it is a testament to the dedication, perseverance, and creativity of our community.

Our schools and departments have continued to shine, achieving excellence in academics, research, and industry collaborations. The transformative initiatives undertaken by our faculty and students have not only enhanced the reputation of our University but also contributed meaningfully to society.

I am particularly moved by the spirit of our students, whose energy and innovation breathe life into our campus. From their artistic expressions in poetry, stories, and visual arts to their active participation in clubs, societies, and pan-university events, they exemplify the holistic growth we strive for. Moments like farewells and convocations remind us of the profound impact education has on shaping futures.

To our dedicated staff, I extend my deepest gratitude for their unwavering support in every endeavor. Together, we have created an environment where excellence thrives and dreams take flight.

Let this magazine serve as a source of inspiration and a reminder of all that we can achieve together.

Warm Regards  
Shri Abhishek Gupta

# MESSAGE FROM THE VICE CHANCELLOR

**Prof. Raghuvir Singh**  
**Vice Chancellor**

I am pleased to note that the University has consistently brought out, *Reflections*, which is, quite literally, a reflection of the diverse activities being taking place in the university. On one hand, it provides a platform for students to showcase their latent creative talent and on the other, it gives our faculty members the opportunity to present their thoughts. It is heartening to know that the magazine nurtures the raw thoughts and imagination of our students. It certainly helps them to practice their hobby and passion.

Over the past decade, the University has carved out a niche in the arena of higher education through innovative pedagogy, collaborations with national and international academic institutions, and partnerships with National R&D Laboratories such as Council of Scientific and Industrial Research (CSIR) and the Defence R&D Organization (DRDO), among others. The university is also on a collaboration spree with Industries.

There are various initiatives taken by the University that distinguish it from other private institutions. The most significant of these is its commitments to societal benefit. I am proud to announce that we have been granted a project from Department of Science & Technology, Government of India, valued at Rs. 1.5 crore. The successful execution of this project will bring about a marked change in the livelihood of SC communities, particularly women, in the adjoining villages.

In my personal interactions with many members of faculty and students, I have found that the university is full of talented individuals who only need nurturing. Some students have shown a keen interest in venturing into startups, and the university is there to support them. I call upon all faculty members to engage in research, development and innovation activities, which will not only enhance your knowledge base but help you impart quality education to our students. I wish to congratulate every member of the KRMU family for bringing *Reflections* to this level. I am confident that with the combined energy of everyone, we can elevate the university to even greater heights.

All the best!

Warm Regards

Prof. Raghuvir Singh

# MESSAGE FROM THE REGISTRAR

**Dr. Rahul Sharma**  
**Registrar**

It gives me immense pleasure to extend my best wishes to the final year students at KRMU. I have had the privilege of interacting with some of them and after all the challenges, successes, and setbacks they have encountered throughout their studies, they have completed this journey with remarkable achievements and cherished memories

Education is a lifelong process, and real life is the greatest teacher. I am sure that the students of the outgoing batch will shape their lives and visions with purpose and determination. An attitude of learning in every position is a key to success, and I wish that you also adhere to this approach in your lives.

The content of *Reflections* is illuminating and inspiring. Most of the articles and poetic expressions are truly fascinating to readers. The reports of activities reflect the vibrancy of the schools in the terms of academic and co-curricular activities. The creative torrent of the students is also praiseworthy

I am pleased to inform that our university offers students excellent and comprehensive educational services, as well as a vast selection of extracurricular activities

I bid you farewell and wish you all the best for your future.

May God bless you all!

Warm Regards  
Dr Rahul Sharma

# MESSAGE FROM THE DEAN ACADEMICS

**Prof. Varuna Tyagi**  
**Dean, Academics**

Our academic programs are designed to cultivate critical thinking, creativity, and a passion for lifelong learning. Here at K.R. Mangalam University we take pride in offering a diverse range of disciplines that empower students to explore their interests and pursue their academic and professional aspirations.

I encourage everyone to actively engage in the vibrant academic community that surrounds us. Our faculty members are dedicated to fostering an environment that encourages dialogue, collaboration, and innovative thinking. I request you all to make the most of your academic journey by seeking out opportunities for research, internships, and participation in extracurricular activities.

This magazine serves as a valuable resource for accessing information about our academic activities, along with extra and co-curricular activities. I invite you to explore the various sections and discover the wealth of opportunities that await you. The Dean of Academics' office is here to support you in your academic endeavours. If you have any questions, concerns, or if there's anything we can assist you with, please feel free to reach out. We are committed to providing a nurturing academic environment that fosters growth, learning, and success. Thank you for being a part of our academic community. Together, let us embark on a journey of discovery, knowledge, and achievement.

Warm Regards  
Prof. Varuna Tyagi

# MESSAGE FROM THE EDITOR AND DEAN, STUDENT WELFARE

**Dr. Anjana Singh**  
**Dean, Student Welfare**

It is with great pride that we present this year's annual magazine, a reflection of our university's remarkable journey of achievements and creativity. Over the past year, our schools and departments have excelled in academics, research, and innovation, setting benchmarks that inspire us all. Our strong industry engagements have opened doors to transformative partnerships, fostering real-world learning and skill enhancement for our students.

The Student Welfare Department has played a pivotal role in nurturing a supportive and inclusive environment, ensuring the holistic growth of every learner. Our dynamic clubs and societies have enriched campus life with their enthusiastic participation in cultural, literary, and technical activities. Pan-university events have brought together our diverse community, creating memorable moments of unity and celebration.

Additionally, our Centers of Excellence continue to spearhead advancements in cutting-edge fields, enabling breakthroughs that extend the impact of our University beyond its boundaries.

This edition also celebrates the vibrant creativity of our students, showcased through poetry, stories, and visual art. Their contributions add depth and diversity, reflecting the rich cultural fabric of our institution.

A heartfelt thanks to our dedicated staff, whose unwavering support and guidance have been instrumental in these achievements. Their relentless efforts ensure the seamless functioning of our university and the well-being of its community.

This magazine is a celebration of excellence, creativity, and collaboration, inspiring us to strive for even greater heights.

Warm Regards  
Dr Anjana Singh

# FROM THE Deans' Desk

# BRINGING LIGHT TO EXCELLENCE

**The School of Basic and Applied Sciences (SBAS)** at K.R. Mangalam University (KRMU), Gurugram, has been a cornerstone of academic and research excellence since its establishment in 2013. With a highly qualified team of 39 faculty members (30 doctorate faculty members and 19 NET-qualified), the school continues to drive innovation and impart quality education.

## ■ Academic Initiatives

SBAS offers a wide range of undergraduate and post graduate programs in Chemistry, Physics, Mathematics and Forensic Sciences. The program curricula have been designed in accordance with NEP-2020 and include core courses, minor courses, value-added courses, skill-based courses and provides an opportunity to students to connect with industry through internships and projects. We offer four streams of minor courses in Artificial Intelligence and Machine Learning (AI-ML), Nanosciences, Environmental Sciences and Data Sciences to promote technological integration and skills amongst students. These programs demonstrate the school's dedication to meeting the demands of the National Education Policy. The courses also encourage the students to apply their skills in cultivating creativity, problem-solving, and critical thinking.

## ■ Key Achievements

### Research

The faculty of the School of Basic and Applied Sciences has achieved remarkable milestones in research. Dr. Seema Raj was awarded **₹1.56 crore by DST for the KRMU KEIC STI HUB**. The faculty members (Dr. Rishi Ranjan, Dr. Ritika Khattri, Dr. Rajni Gautam and Dr. Neeraj Kumari) received ₹7.8 lakh as a seed grant for pursuing innovative research in areas of material science.

### Prof. (Dr.) Meena Bhandari

Dean  
School of Basic and  
Applied Sciences

SBAS also has an impressive research record, with 10 patents, 432 book chapters, 104 books, and 50 publications in 2023-24, featuring work in top journals like *Sensors and Actuators* (IF: 8) and *International Journal of Biological Macromolecules* (IF: 7.7).

### Awards

Dr. Komal Yadav, Dr. Neeraj Kumari, and Dr. Chandra Mohan were honored for their outstanding contributions to community service.

### Student's Accomplishments

Students achieved remarkable success in various competitions. Aryan and Sannah secured the first position at GD Goenka University in the inter-university Elevator Pitch Entrepreneurial Debate Competition held in March 2024 and in the Smart Ideathon Competition at KRMU held in January 2024. Shikha, Ritu, and Vivek secured second place in the Science-Fiesta 2024 at KRMU. Ms. Prakarti won first place in the speech competition, while Ms. Nadini was recognized as a top poet (15<sup>th</sup> Place among top 1000 poet in India) in the National Poetry Competition organized by S7 India.

### ■ Collaborations

MoUs with prestigious institutions like Deshbandhu College, Gargi College, Shivaji College (University of Delhi) and RJ Forsec Pvt Ltd, Delhi were signed

to facilitate workshops, seminars, internships, conferences, faculty development programs and research. SBAS organized the 1st International Conference on **Advanced Materials for Green Chemistry and Sustainable Environment** in collaboration with Indian Science Congress Association (ISCA) Rohtak Chapter and International Association for Advanced Materials (IAAM) Sweden on 15-16 February 2024. and a one-week Faculty Development Program (FDP) under Mahatma Hansraj- Malaviya Mission Teacher Training Centre (MHMMTTC), New Delhi, on Fabrication and Characterization of Nanomaterials For Device Applications from 27<sup>th</sup> May to 1<sup>st</sup> June 2024 attracting

over 100 participants.

### ■ Community Engagement

Various initiatives such as literacy programs for women, and a de-addiction campaign in nearby adopted Villages were carried out to provide social connect to the students. Additionally, a study on the effects of electronic devices on education involved 50 volunteer university students and 600 students from Abhaypur and Dhaula Villages.

The School of Basic and Applied Sciences continues to set benchmarks in education, research, and community outreach, fostering a holistic development environment for students and faculty alike.

## CELEBRATING OUR SUCCESS AND EMBRACING THE FUTURE

The journey of the School of Journalism and Mass Communication in 2024 has been marked by remarkable achievements, thanks to the hard work, creativity, and resilience of our students, faculty, and staff despite multiple challenges. These accomplishments reflect the ethos of our school: a commitment to excellence, innovation, and a forward-thinking approach to journalism and mass communication education.

The past year has been an inspiring testament to the diverse talents of our students and their dedication to pursuing meaningful opportunities. Our students have actively participated in prestigious industry events and internships, setting a high standard for their peers. Our BAJMC students Neeraj, Sneha, Aastha, and Akrur and MAJMC students, Prashik and Vanshika exemplified our school's spirit by volunteering at the Jagran Film Festival, gaining invaluable exposure to the dynamic world of cinema and event management.

The professional successes of our students have been equally noteworthy. Himanshu and Sneha from BAJMC secured internships at The Hindu, one of India's most esteemed newspapers, honing their journalistic skills and gaining first-hand newsroom experience. Neeraj demonstrated versatility by working with Guided Self Publishing, showcasing the growing significance of content creation and self-publishing in today's media landscape. Similarly, Rebecca's stint at Ken Research highlighted the importance of data-driven insights in shaping communication strategies. Entrepreneurial spirit has been another hallmark of our students' achievements. Ishmeet and Soumitra have carved a niche for themselves by venturing into cosmetics and candle-making, proving that communication skills can also empower businesses with creative storytelling and branding. Academic excellence continues to be a cornerstone of our success. Rebecca, a BAJMC student, co-authored a research paper with one of our faculty members, which was published in a UGC CARE journal—a prestigious recognition of our focus on research-driven education. Rebecca also

“

**Prof. (Dr.) Amit Chawla**

Dean

School of Journalism and  
Mass Communication

”

represented the school at an international conference, demonstrating our commitment to global academic engagement. Our students have also excelled in practical applications of their learning. Love Sukhani from BAJMC volunteered for the live streaming of the convocation ceremony on YouTube and Facebook, showcasing technical proficiency and innovative content delivery. Pooja Kumari and Shrishti, MAJMC students, completed internships with the National Documentary Film Festival (NDFF), enriching their understanding of documentary storytelling. Anupam Nath, also from MAJMC, secured a paid internship, reflecting the growing demand for our students in the professional sphere. While celebrating these achievements, we also chart a vision for the future in line with the industry's technological advancements, globalization, and changing audience dynamics. Our school is committed to embracing these trends by fostering a culture of innovation and adaptability. In the coming years, we aim to integrate cutting-edge tools like artificial intelligence, data analytics, UX/UI design and immersive media into our curriculum. We will expand international collaborations, offering students exposure to global best practices. Ethics and media literacy will remain central to our teaching, preparing students to navigate complex challenges with integrity.

Our vision is to empower students to become not just media professionals but change-makers—individuals who can influence narratives, shape opinions, and drive societal progress.

## ENHANCING LEARNING AND PROFESSIONAL GROWTH

The School of Medical & Allied Science (SMAS) has forged significant academic and research partnerships, enhancing learning and professional growth opportunities for its students.

SMAS integrates experiential, participative, and project-based learning to foster practical knowledge and skill development. Collaborations and field visits to premier institutions immerse students in real-world pharmaceutical practices. Health camps and industrial visits provide hands-on exposure, while projects like molecular docking workshops enhance critical thinking and problem-solving skills.

Collaborating with the International Centre for Stem Cells, Cancer & Biotechnology (ICSCCB), KRMU promotes transformative research and skill-building initiatives, including workshops on molecular docking. Through internships in hospitals, the pharmaceutical industry, and research institutions, students have significantly improved their practical skills, research acumen, and overall comprehension of the pharmaceutical field.

The National Conference on “Current Paradigms in Cancer Theranostics” showcased innovative cancer research and fostered interdisciplinary collaboration, preparing students to address emerging challenges in healthcare.

Field visits to institutions like CSIR-IGIB and Translational Health Science and Technology Institute provided students with hands-on experience in pharmaceutical technology, quality

“

**Prof. (Dr.) Hema Chaudhary**

Dean  
School of Medical &  
Allied Science

”

assurance, and drug development, bridging the gap between theory and practice.

An industrial visit to Yakult Danone India Pvt. Ltd. offered exposure to probiotics, Good Manufacturing Practices (GMP), and quality control, inspiring students to pursue innovation and excellence in healthcare and biotechnology. SMAS organized a health camp addressing anaemia in rural communities, providing free screenings, consultations, and supplements to improve public health awareness. The camp emphasized the importance of nutrition and preventive care, fostering community engagement and enabling students to apply theoretical knowledge in real-world settings, thus enhancing their clinical and interpersonal skills.

### **Future directions based on SMAS Initiatives**

SMAS aims to expand collaborations with global institutions, enhancing interdisciplinary workshops and internships. Plans include advanced hands-on training in areas like AI in drug

discovery and nanotechnology, alongside more field visits. The School seeks to boost participative learning through student-led projects, expanded health camps, and multidisciplinary initiatives. Real-world problem-

solving challenges and structured tracking of skill development will further equip students with global competencies and leadership qualities for impactful careers in healthcare and research.

# SHAPING DESIGN EDUCATION AND PIONEERING INNOVATION

The School of Architecture and Design (SOAD) at K R Mangalam University has established itself as a trailblazer in architectural and design education. Offering programs such as Bachelor of Architecture and Bachelor of Design in diverse fields like Interior Design, Fashion Design, UX/UI, Game and Animation Design, and Textile and Entrepreneurship, SOAD caters to the evolving demands of the design industry. The past year has been a testament to SOAD's unwavering commitment to structured learning, experiential education, and industry integration, setting benchmarks in the academic realm.

## A Transformative Approach to Learning

SOAD's pedagogy focuses on blending structured theoretical knowledge with hands-on experiential learning. Initiatives like KRMU Live Lab and site visits enable students to interact with real-world challenges, providing a practical context to their education. Key site visits included:

**Brick Kiln Visit:** Offering architecture students insights into material production and traditional construction practices.

**Industry Visit to Somany Ceramics:** Exposing students to cutting-edge ceramic manufacturing techniques.

**Case Study of Kiyan Restaurant at Roseate House:** Providing design students with a firsthand understanding of functionality and aesthetics in real-world spaces.

**Workshops and outdoor activities,** like the Watercolor Workshop in Gamroj, allowed students to hone their skills in nature's lap, merging creativity with environmental inspiration.

**Encouraging a Culture of Innovation and Excellence**  
SOAD fosters a vibrant culture of open dialogue and intellectual exchange. Initiatives like ADDA@SOAD (Analyze, Dialogue, Design & Architecture)

**Prof. (Dr.) Tanaya Verma**

Dean  
School of Architecture  
and Design

bring industry experts into the classroom, offering insights into current trends and bridging the gap between academia and practice. Celebratory events like World Art Day, World Architecture Day, and World Handloom Day inspire students to engage with global and local design practices, highlighting the importance of sustainability, tradition, and innovation in their work.

Competitions like #SNAP, a photography contest judged by renowned photographer Aditya Arya, and exhibitions such as the Design Mela showcase students' creativity while encouraging them to compete and interact with professionals. Students made a remarkable impression by showcasing their designs at Delhi Times Fashion Week, while immersive study trips to Jodhpur, Chennai, and Dharamshala provided them with hands-on learning experiences and cultural insights.

## Promoting Research and Academic Growth

Research is a cornerstone of SOAD's ethos. Faculty and students are encouraged to collaborate on interdisciplinary projects, culminating in conferences and publications. In March 2025, SOAD will host the International Multidisciplinary Conference "Design 2030", a landmark event focusing on sustainable innovations for global needs. The conference, in collaboration with the Council of Architecture, Indian Institute of Architects Haryana Chapter, Studio Tvastra, and international institutions like

the University of Florida and City of Glasgow College, underscores SOAD's global outlook.

### **Building a Collaborative Learning Community**

SOAD's vertical studios and cross-program collaborations encourage students to work together on multidisciplinary projects, fostering teamwork and a holistic approach to design. Faculty development workshops emphasize the importance of shared responsibility and instill pride in the institution, creating a thriving community of educators and learners.

### **A Vision for the Future**

SOAD is committed to adopting global trends to stay ahead in the evolving design landscape. Emerging technologies like computational design, artificial intelligence in architecture, and sustainable urban

development are integral to the curriculum. Plans to establish innovation labs and international partnerships aim to provide students with global exposure and prepare them for leadership roles in the industry. As SOAD continues its journey, it remains steadfast in its mission to produce not just architects and designers but visionary leaders who can address the challenges of the modern world with innovative solutions. By fostering a culture of curiosity, collaboration, and excellence, SOAD is setting the stage for a future filled with promise and creativity.

The journey so far has been extraordinary, but the road ahead is even more exciting. With a strong foundation, ambitious goals, and a commitment to excellence, SOAD is truly shaping the future of design education.

# EXPERIENTIAL AND PARTICIPATIVE LEARNING

The School of Agricultural Sciences at KR Mangalam University has made remarkable strides in advancing its research capabilities and promoting urban agriculture. Here's a summary of its key achievements and a forward-looking path for continued growth:

## Strengthened Research Activities

In addition to their academic responsibilities, faculty have planned and conducted experiments on-station and on-farm to develop cutting-edge research projects focusing on sustainable agriculture, crop production, crop protection, and climate-resilient farming practices. Collaboration with national research institutions and private sector companies dealing in seeds and other agro-inputs to enhance knowledge sharing and resource utilization. Establishment of laboratories equipped with modern tools for soil analysis and precision farming techniques.

## Promoting Urban Agriculture

Implementation of innovative urban farming initiatives, such as vertical gardening, hydroponics, and rooftop farming, to address the challenges of food security in urban areas. Engagement with urban communities to provide training programs on sustainable urban farming practices. Collaboration with local governments to integrate urban agriculture into city planning.

## Capacity Building and Outreach

Faculty have participated in workshops, FDPs, seminars, and conferences to disseminate research findings and foster industry-academia collaboration. Launching specialized programs for students to gain practical exposure to contemporary agricultural practices. Initiating community-oriented projects to encourage sustainable practices among farmers and urban dwellers.

## Forward-Looking Path

### Enhancing Research Collaboration

Forge partnerships with national agricultural research organizations and agro companies to work on emerging issues such as heat tolerance, natural farming, and

**Prof. (Dr.) Joginder Singh**

Dean  
School of Agricultural  
Sciences

regenerative agriculture. Expand funding opportunities through industry tie-ups and government grants to support groundbreaking research.

## Integration of Technology

Leverage digital tools like artificial intelligence, IoT, and blockchain for precision agriculture and efficient resource management. Develop smart urban farming models utilizing renewable energy sources and automated systems.

## Curriculum Development

Introduce interdisciplinary courses combining AI in agriculture with data science, and environmental studies. Offer certifications and short-term courses/diplomas tailored to urban agriculture enthusiasts and professionals. Introduce courses on entrepreneurship, business planning, and agri-business management alongside technical courses.

## Sustainability and Climate Action

Focus on carbon-neutral farming methods and the adoption of climate-smart technologies. Promote the use of eco-friendly practices and materials in urban farming to minimize environmental impact.

## Community Engagement

Strengthen collaboration with local communities and policymakers to address region-specific agricultural challenges. Expand public awareness campaigns to emphasize the importance of urban agriculture for food security and environmental conservation. By blending innovation with tradition, the School of Agricultural Sciences at KR Mangalam University is well-positioned to lead the way in addressing future agricultural challenges while fostering sustainable urban ecosystems.

# SHAPING THE FUTURE OF LEARNING

The School of Education at K.R. Mangalam University has had a transformative year, driven by a commitment to innovation, inclusivity, and excellence in teacher education. As we continue to shape the educators of tomorrow, our efforts reflect a deep dedication to advancing pedagogical practices and responding to global educational trends.

The past academic year has been a testament to our unwavering pursuit of educational and professional excellence in the field of teacher education:

Our student-teachers have secured placements in reputed educational institutions and excelled in competitive examinations, showcasing their readiness for impactful teaching careers.

The faculty of the School of Education has pioneered the integration of case-based learning, experiential methodologies, and technology-enhanced pedagogies to empower students with modern teaching tools.

Faculty and students have significantly contributed to educational research, with several publications in books and book chapters with International and National ISBNs, Scopus-indexed journals, UGC-CARE list journals, the publication of patents, securing research awards and presentations at international conferences.

Strategic collaborations with leading teacher education organizations, non-governmental organizations and schools have provided students with experiential learning opportunities and exposure to best practices in education.

Outreach programs focusing on inclusive education, mental health, digital literacy, foundational literacy and numeracy, environmental sustainability and capacity building have strengthened our ties with society and showcased the School's role as a change agent.

To address the evolving landscape of education, the School of Education is embracing forward-thinking

**Prof. (Dr.) Tania Gupta**

Dean  
School of Education

global trends in light of the National Education Policy (NEP) 2020 and Sustainable Development Goals (SDGs):

- The integration of AI, virtual reality, and e-learning platforms to equip future educators with 21st-century teaching tools.
- Embedding inclusive education practices and equity-driven teaching frameworks to ensure learning environments that embrace diversity.
- Incorporating environmental literacy and sustainable practices in the curriculum to prepare environmentally conscious educators.
- Bridging education with psychology, sociology, and technology to develop well-rounded teaching professionals.
- Introducing more courses and internships on Indian Knowledge Systems.

The School of Education envisions becoming a hub for cutting-edge research, innovative teaching methodologies, and impactful community partnerships. As we look to the future, we remain dedicated to fostering an ecosystem of excellence that aligns with the vision of K.R. Mangalam University and prepares educators to lead in a rapidly changing world.

# EMPOWERING LEARNING THROUGH PROJECT-BASED AND EXPERIENTIAL APPROACHES"

Through an industry-integrated curriculum, state-of-the-art facilities, and Centers of Excellence in Robotics, Automation, AI, and ML, SOET prepares students to meet contemporary engineering challenges.

The teaching-learning framework emphasizes project-based, experiential, and student-centric methods, encouraging innovation, entrepreneurship, and real-world problem-solving.

Continuous engagement with industry partners, a robust mentor-mentee system, and numerous extracurricular initiatives enable students to excel both academically and professionally.

SOET remains dedicated to advancing educational quality, aligning with NEP 2020, and achieving national and international benchmarks to shape future-ready engineers and technologists.

## Programmes Offered

- Bachelor of Technology - **Computer Science & Engineering**
- Bachelor of Technology - Computer Science & Engineering (**Artificial Intelligence & Machine Learning**) : IBM & Samatrix
- Bachelor of Technology - Computer Science & Engineering (**Cyber Security**) : EC Council
- Bachelor of Technology - Computer Science & Engineering (**Data Science**) : IBM
- Bachelor of Technology - Computer Science & Engineering (**UX OR UI**) : Imagine XP
- Bachelor of Technology - Computer Science & Engineering (**Full Stack Development**): Xebia
- Bachelor of Computer Applications - (**Artificial Intelligence & Data Science**): IBM & Samatrix
- Bachelor of Science (Hons) - **Computer Science/**

**Prof. (Dr.) Pankaj Agarwal**

Dean  
School of Engineering  
& Technology

## Cyber Security/Data Science

- Master of Computer Applications
- M.Tech in Computer Science & Engineering
- Ph.D. PROGRAM in Engineering

## Curriculum Highlights

Dynamic Curriculum: Specifically designed in consultation with industry insiders and experts with a multidisciplinary approach

Pragmatic Learning Experience: Realistic hands-on training for absolute excellence

Learn From the Best: Consistent mentoring by acclaimed academicians and top industry experts

Industry Exposure: Ensuring absolute preparedness for successful career progression

Integrative Learning for Sustainable and Ethical Development

Focus on Career Readiness and Lifelong Learning

## INDUSTRY PARTNERS & MOUS

## CENTERS OF EXCELLENCE

Center of Excellence – Robotics and Automation Lab

**Purpose:** Equip students with practical skills in robotics, empowering them to work on innovative projects that address real-world problems

### Major Outcomes

- No. of Projects Completed: 20+
- Active Student Projects: 30
- Start-ups: 3
- E-Yantra Lab (IIT Bombay) Projects: 15
- Phoenix Drone Flying Centre Certifications: 10
- MindBenders- Innovative Project Competition: 150+
- Internships at IIT Mandi: 170+ students

### Centre of Excellence- Artificial Intelligence

Purpose: Develop students' practical skills in artificial intelligence and machine learning, enabling them to work on projects that solve real-world problems

### Major Outcomes:

- Completed Student Projects: 20
- Research Projects Submitted: 05
- Summer Internships Programs: 02
- Edited Books – 03
- Publications – 04
- Ongoing Research Projects: 03

## Awards & Recognitions to Students

### Student Awards and Recognitions

**Ms. Sejal Mittal, BCA** represented India. Won Silver at **22<sup>nd</sup> World Traditional Karate Championship** Villa Do Conde, Portugal, held from **October 7 to 14, 2024**

**Chancellor's Excellence Award - 2023 to M.Ria (B.Tech).** business summer school program at the University of Portsmouth

**1<sup>st</sup> Position at Matrix 2.0 Hackathon, GGSIPU-IITM University, Delhi Janakpuri, Sep 2024**

**Hackmor Hackathon at Manav Rachna University Oct 24**

**Winners at Hack Utsav Hackathon at NorthCap Univ, Oct 2024**

# EXPERIENTIAL LEARNING: BUILDING THE FOUNDATION FOR PROFESSIONAL SUCCESS IN HOSPITALITY

## As the adage says, experience is the best teacher

Experiential learning plays a pivotal role in the hospitality industry, allowing students to transfer classroom knowledge into practical, real-world applications. It enables them to make immediate decisions, take initiative, accept accountability for their actions, and utilize intellect, creativity, critical thinking, and innovation to achieve goals. When confronted with actual business scenarios, students apply their learning, receive prompt feedback, collaborate effectively with peers, and establish valuable practical habits.

### Key Examples of Experiential Learning at the School of Hotel Management and Catering Technology

**Internships:** Students actively engage with global luxury hotels like Accor, The Oberoi, Roseate Hotels etc. gaining valuable industry experience and networking with professionals. Many students have been recognized and rewarded for their outstanding performance during internships.

### Virtual Simulations and Workshops

Through carefully designed practical sessions across

**Prof. (Dr.) Anjana Singh**

Dean

School of Hotel  
Management and Catering  
Technology

all operational departments, SOHMCT students engage in real-life scenarios via simulations and role-playing activities. They manage real-time guest interactions, handle complaints, and resolve challenges, receiving feedback that drives their improvement. The specialized workshops by Chef Nishant Chaubey, Chef Vaibhav Bhargava, chef Rahul wali on specialized cuisines, and brand practices have helped students understand the industry expectations.

### Problem-Based Learning

Experiential learning encourages both technical and managerial skill development and also emphasizes soft skills. SOHMCT students are exposed to real-world challenges and case studies, sharpening their

reasoning, observation, and analytical skills both inside and outside the classroom. Apart from case studies, students have been using Hotelogix PMS to perform simulations in operational decision of the hotel.

### Role-Playing, Debates, and Projects

Activities such as business simulations and complaint-handling scenarios allow students to apply theoretical knowledge in diverse ways. These experiences enhance essential soft skills, such as communication, adaptability, and teamwork. Our SOHMCT students did specialized projects with Encovate and Monin beverages to explore and analyze real life tasks and responsibilities.

### Special Events and Festivals

By participating in organizing events, students gain insights into different cultures, traditions, and customs, while also developing leadership skills and a sense of responsibility. Such events foster critical thinking, teamwork, social awareness, and effective communication. Our students organized various themed event like Diwali, Halloween etc. to apply operational knowledge and skills in all domains.

### Expansive Career Opportunities in Hospitality

A degree in hospitality management offers limitless career possibilities. As one of the world's fastest-growing industries, hospitality continues to expand and diversify annually. Careers in luxury hospitality

and tourism provide unique opportunities for professionals dedicated to delivering exceptional guest experiences.

While many hospitality careers begin in hotels and resorts, the industry is evolving with innovative concepts and accommodations. The food and beverage sector also provides diverse opportunities, including restaurants, nightclubs, catering, food trucks, fine dining, and more. Graduates with hospitality degrees are well-prepared for roles in travel and tourism, including airlines, cruise ships, private jets, and charters. These roles vary from guest-facing positions to behind-the-scenes responsibilities like marketing, sales, and finance.

The hospitality field also extends into the MICE (Meetings, Incentives, Conferences, and Events) sector and related industries such as sports, wellness, spas, and leisure activities. Moreover, the soft skills, international exposure, and cultural awareness gained through hospitality programs make graduates highly sought after across various industries. With a hospitality management degree, the career opportunities are vast and exciting, offering dynamic roles for individuals passionate about creating remarkable experiences. The school aims to bring diverse opportunities for the students and does not wish to be limited to conservative and traditional career options in hospitality.

# PIONEERING EXCELLENCE IN EDUCATION

The School of Humanities at K.R. Mangalam University stands as a beacon of academic excellence, holistic development, and societal impact. It has witnessed a remarkable year of growth, innovation, and achievement. As we continue to nurture the next generation of critical thinkers, researchers, and leaders, I am proud to share some key milestones and our vision for embracing transformative global trends in education.

## **The past year has been monumental in terms of academic and co-curricular accomplishments:**

1. Students have excelled in international conferences, internships with prestigious organizations such as NITI Aayog and the Council for Social Development, and field projects addressing global and local challenges.
2. Our faculty has excelled in research through participation in International Conferences, seed grant projects, and publications in the form of impactful books and journal articles, highlighting the school's commitment to pioneering research and thought leadership.
3. The school forged partnerships with various institutions, providing students with global exposure and interdisciplinary opportunities.
4. Initiatives such as mental health awareness campaigns and community service projects have strengthened our bond with society and demonstrated our commitment to social responsibility.
5. The school organized workshops, debates, and voter education sessions, encouraging active civic participation and critical discourse.
6. Partnering with AIESEC Delhi University, the School facilitated dynamic discussions on topics like digital privacy and elections, fostering critical dialogue among students.
7. Graduates of the School of Humanities continue to excel in their professional journeys, reflecting

**Prof. (Dr.) Tania Gupta**  
Dean  
School of Humanities

on the invaluable mentorship and opportunities provided by K.R. Mangalam University. Their achievements resonate with the values of inclusivity, innovation, and leadership fostered by the school.

## **To stay at the forefront of education, the School of Humanities embraces key global trends:**

Leveraging artificial intelligence, augmented reality, and other digital tools to make learning more interactive and personalized.

Incorporating environmental studies and sustainable practices into the curriculum to foster eco-conscious graduates.

Fostering international collaborations, focusing on global challenges in research, and introducing cross-border community engagement initiatives.

As we look to the future, the School of Humanities remains steadfast in its mission to shape empathetic, innovative, and socially responsible citizens. By aligning with K.R. Mangalam University's vision, we are committed to reimagining education and cultivating lifelong learners prepared for a rapidly changing world.

# TRANSFORMING LEARNING THROUGH EXPERIENTIAL LEARNING

The School of Management and Commerce (SOMC) has made significant progress this year, reaffirming commitment to provide high quality corporate partnered and industry-relevant education. The school has adopted the New Education Policy in all its programs and has launched advanced, specialized programs in collaboration with leading global organisation including Grant Thornton, IBM, NSE, Safe Express, Samatrix, GCEC Foundation etc. The aim of these programs is to offer a unique value proposition to students equipping them with industry relevant and advanced technological skills.

## **This year, the school launched the following innovative courses:**

- BBA (Hons/Hons with Research) in Logistics & Supply Chain Management, in collaboration with Safe Express
- BBA (Hons/Hons with Research) (ACCA-UK) and BCom (H) (ACCA-UK), in partnership with Grant Thornton
- B.Com (Hons/Hons with Research) (ACCA-UK) and BCom (H) (ACCA-UK), in partnership with Grant Thornton
- BBA(Hons/HonswithResearch)inEntrepreneurship, supported by GCEC Global Foundation
- MBA in Digital Marketing, in collaboration with Imarticus Learning.
- MBA in Analytics in collaboration with IBM.

The school has extended the collaborations with IBM, NSE and Cesim, for enhanced and enriched learning experience. The school has also commenced a Design Thinking Lab to foster innovative product design and ideations.

SOMC Faculty has published 7 patents, 2 books, 18 research articles and 39 book chapters this year.

**Prof. (Dr.) Indira Bhardwaj**

Dean  
School of Management  
and Commerce

This year SOMC faculty has started two new research projects

■ Dr Anshika and Dr Monika have been awarded Research Grant for Project - Strings of Resilience: Exploring the Socio-Economic-Cultural Significance of Puppetry in the Northern Region of India for Kathputli Community. Project Aims to enhance and enrich the role of Kathputli community and art of Kathputli Making and storytelling in contemporary times including education and training. Amount Sanctioned –20.38 Lakhs

■ Dr. Nikhat Mushir and her team have been awarded a prestigious research project titled "Empowering Children in the Digital Age: Analysing Experiences and Vulnerabilities within the Framework of Vision Viksit Bharat and Sustainable Development Goals." This project, funded under the special call for Vision Viksit Bharat@2047 by the Indian Council of Social Science Research (ICSSR)

■ A research project on the effectiveness of government schemes for girl child education has been considered and recommended for a seed grant by the management of KRMU

The faculty employ innovative teaching methodologies including simulation, flipped classrooms, case-based teaching, social extension activities, project-based teaching, games etc to

enrich experiential learning on campus.

Students of SOMC have won first positions in Sports and Cultural events at the Inter University level held at SGT University, Gurgaon. A few students have starting developing their own ventures and are preparing a corporate launch of their entrepreneurial ventures.

The school demonstrates a strong commitment to sustainability and global development, with 12 research papers aligned with the Sustainable Development Goals (SDGs), 5 PhDs awarded in sustainability, and 8 courses specifically designed to address SDG-related issues. This integration of SDGs into academic research and curriculum highlights the institution's role in fostering innovative solutions to global challenges and preparing future leaders to address sustainability issues.

#### **School has a rich advisory board:**

- Mr. Narayanan Ramaswamy, Partner & National Lead for Education & Skill Development Sector, KPMG India
- Mr. Manish Jain, Former Director Johnson and Johnson, Founder Yes 2 Treatment
- Mr. G.Venkateshwaran, Former Head Sales

Excellence, Nestle

- Mr. Anil Dua, CRO, Hindustan Times
- Ms. Ratna Singh, CHRO, Pearl Industries, Former CHRO Flipkart
- Prof. Punam Sahgal, Former Professor, IIM Lucknow.
- Prof. Akbar, Former Professor, IIM Lucknow.
- Prof. Soma Dey, Professor, FMS, Delhi.
- Prof. Ashok Panjwani, Professor, Operations Management MDI, Gurugram.
- Dr. S.R.Singhvi, Former Professor, IMT Ghaziabad.
- Prof. Rachel Davis Former Director at NUS Business school and faculty at NYU.

#### **Best Practices of SOMC are as follows:**

Student Investment Fund by KRMU Investment Club which trains students on Live Stock Data for Active Portfolio Management.

Sustainable Product Packaging – Prototyping as a part of Sustainable Marketing Strategies.

In House wastepaper recycling as a sustainability initiative

# SHAPING THE FUTURE OF LAW EDUCATION

## Key Achievements:

The journey in the past year has set a milestone by establishing Moti Lal Nehru Chair and Atal Bihari Vajpayee Chair for good governance and to lead cutting-edge research in the legal field, publish high-impact papers under the guidance of Chair Professors, and contribute to the academic community's knowledge base. The Centre of Excellence for Criminology and Victimology has been established to foster an advanced understanding of crime, justice, and victim support through interdisciplinary research, education, and policy advocacy. Also, the Centre of Excellence for Human Rights has been established to promote and advance the understanding, implementation, and protection of human rights through education, research, advocacy, and capacity-building.

The Legal Aid Committee of the School was awarded as Best Legal Aid Committee in 2023-24 by Knowledge Steez. The Legal Aid Committee has organized 10 activities under the umbrella of Legal Aid committee.

We have organized 2 Workshops to enhance the moot skills of the students and 1 intra-school Moot Court and 1 intra-school Mock Trial for shaping the legal minds of the students by the Moot Court Committee

Over all 23 papers have been published by faculty members in Scopus, UGC Care-I Journals and 63 papers have been published as Book Chapters. The students have been selected in various internships under GAIL, the Supreme Court under Hon'ble Justice Kalol, Law Firms and Industry.

The School of Legal Studies have signed 4 MOUs with Academia & Industry for enriching the research of the students and the collaborations will promote in providing opportunities to the students in various legal and corporate world.

Insights on Global Trends:

“

**Prof. (Dr) Kaveri Sharma**

Dean  
School of Legal Studies

”

Legal education is at a crossroads, driven by both rapid technological advancements and the growing need for more inclusive, interdisciplinary, and global perspectives. To better prepare future lawyers for the complexities of an interconnected and evolving world, we, at SOLS embrace transformative global trends. These trends including - technological integration, sustainability initiatives, interdisciplinary approaches, and fostering cultural inclusivity, can enhance the learning experience and shape a generation of lawyers equipped to address pressing legal challenges. The integration of technology into legal education is one of the most significant transformations of recent years. Legal research tools powered by AI, such as Westlaw Edge or LexisNexis, can automate repetitive tasks, allowing students to focus on developing their critical thinking and analytical skills. Moreover, incorporating technology such as legal simulations and virtual courtrooms can help students develop practical skills in a controlled, immersive environment. These tools enable students to experience mock trials, arbitration hearings, or negotiation scenarios, preparing them for real-world legal challenges in a dynamic and experiential way.

As the world faces growing environmental challenges, the law school must adapt by integrating sustainability initiatives into the curricula and institutional practices. This includes offering specialized courses in environmental law, climate change, and sustainable business practices. Students can be encouraged to engage with real-world

sustainability issues through pro bono projects, internships, or collaborative partnerships with NGOs and governmental agencies. Incorporating sustainability into law school culture also means rethinking how legal institutions operate.

The future of legal education lies in embracing transformative global trends that foster a more inclusive, technologically savvy, and interdisciplinary approach to learning. By

integrating technology, promoting sustainability, encouraging interdisciplinary learning, and fostering cultural inclusivity, law schools can create a dynamic learning environment that prepares students to thrive in a rapidly changing global legal landscape. These changes will not only enhance the educational experience but will also better equip future lawyers to meet the diverse and complex challenges of the 21st century

## A YEAR OF GROWTH AND EXCELLENCE

As we conclude the academic year 2023-2024, I am filled with immense pride and gratitude for the remarkable achievements of the School of Physiotherapy and Rehabilitation Sciences at K. R. Mangalam University in its first year of establishment. This past year has been a testament to the dedication, creativity, and unwavering commitment of our faculty, staff, and students.

With the successful implementation of innovative teaching methodologies, structured clinical training programs, evidence-based evaluation techniques and the use of technology to enhance the learning experience, the year witnessed better engagement, better outcomes and better feedback as well.

We implemented the OSPE mode for practical examinations, earning positive reviews from external examiners. The undergraduate research and entrepreneurship training at the Physiotherapy OPD in the KRMU campus have also added to our distinctiveness. Many informative, interesting and engaging events were planned this year- guest lectures, workshops, field visits, competitions and more. We also successfully organised KRMU PhysioCon, a national conference, which was attended by luminaries of the physiotherapy world.

The students and faculty of SPRS continued their research endeavors and published 16 research papers in prestigious journals, 4 conference proceedings, 4 books, 42 book chapters and 5 patents. They also represented the University at conferences and symposia, receiving laurels and awards. Clinical excellence remains at the heart of our program. We extended our industrial collaborations with 3 new MOUs- with C. K. Birla Hospital, Sunil Boxing Academy and Pushkar Healthcare Ltd. Our students gained invaluable

“

**Dr. Mamta Shankar (PT)**

School Coordinator  
School of Physiotherapy  
and Rehabilitation Sciences

”

practical experience through clinical rotations in renowned healthcare facilities. The first batch of BPT completed their internship at prestigious hospitals like Medanta, Paras, etc.

They were exposed to diverse patient populations, complex clinical scenarios, and cutting-edge treatment techniques. The students also had the opportunity to receive on-field training at sports events, providing medical cover to the athletes under expert supervision. Community engagement has been a priority for our school. We actively participated in community outreach programs, providing free physiotherapy services to underserved populations. Our students participated in health camps, awareness programs, and rehabilitation workshops, promoting health and wellness in the community with a special focus on women's health in the rural population. These initiatives have had a positive impact on the lives of many individuals and have strengthened our bond with the community. As we look ahead to the future, we remain committed to ensuring that each student is equipped with the updated knowledge and skills required for the future, while at the same time remaining rooted in social consciousness. I extend my heartfelt gratitude to the management and leadership at KRMU for their support and our dedicated faculty, staff, and students for their drive and passion.

**Dr. Mamta Shankar (PT) received BEST ACADEMICIAN AWARD at GAPTCON at Artemis Hospital, Gurugram**

**Harsh Raj, BPT Final Year student received STUDENT OF THE YEAR award at Physio Connect conference in Chandigarh**

**Students were involved in health camps, visit to Old Age Home and awareness drives**

**On-field sports physiotherapy training for BPT students**

# RESEARCH AND DEVELOPMENT CELL

K. R. Mangalam University, Gurugram

The Research at K.R. Mangalam University, Gurugram, was initiated in 2013 with the aim of fostering a robust research culture among students and faculty members. Situated within a university known for its commitment to quality education and interdisciplinary learning, the RDC is instrumental in supporting research initiatives, facilitating funding opportunities, and encouraging innovation across various academic fields. The Research and Development Cell aims to foster a strong

“

Dr. Seema Raj

Dean Research

”

research culture by encouraging faculty and students to undertake impactful projects. It assists in securing funding from governmental and private agencies, including seed grants for initiating research. The cell promotes interdisciplinary collaboration across the university and supports the publication of research in reputed journals and conferences to enhance visibility. The cell is also responsible for the PhD. Program, research facilities, consultancies, research policy and committee formation etc. Additionally, it organizes workshops, seminars, and training sessions to develop research skills among students and faculty.

In 2024, K. R. Mangalam University achieved significant milestones in research and innovation. The university recorded 238 journal article publications, 545 books, 478 book chapters, and 108 conference proceedings. Additionally, 103 patents were granted and published, reflecting the institution's commitment to intellectual property development. In the domain of funded research, two government-funded projects were secured, with a total grant amounting to 176.38 lakh, further strengthening the university's research capabilities and contributions to academic excellence. Furthermore, the university provided seven seed grants totaling 16.86 lakh to support early-stage research, strengthening its research ecosystem and academic excellence.

The image displays three posters for seminars organized by the Research and Development Cell (RDC) at K.R. Mangalam University, Gurugram. Each poster includes the university's logo, the RDC's name, and the seminar details.

- Poster 1:** "Systematic Growth of Research with AI Challenges & Opportunities in Ethics & Plagiarism". Date: 23/09/2023. Time: 2:30 P.M. Onwards. Venue: A-213. Target Audience: Faculty members and Students. Mode of Conduct: Offline. Keynote Speaker: Dr. Mukesh Jewariya, Senior Scientist, CSIR-MARRAS, Physical Chemistry, New Delhi.
- Poster 2:** "COLLECTING BASE LINE DATA FOR RESEARCH GRANTS". Date: 20.12.23. Time: 2:00 P.M. Onwards. Venue: A-213. Mode of Conduct: Offline. Keynote Speaker: Dr. Bhavna Sharma, Research Advisor, KRMU, Gurugram. Target Audience: Faculty members and Research Scholars. Event Coordinators: Research and Development Cell.
- Poster 3:** "Decoding the art of Scientific Writing". Date: 14.12.23. Time: 2:00 P.M. Onwards. Venue: A-213. Mode of Conduct: Offline. Keynote Speaker: Dr. Bhavna Sharma, Research Advisor, KRMU, Gurugram. Target Audience: Faculty members and Research Scholars. Event Coordinators: Research and Development Cell.

## STUDENT WELFARE

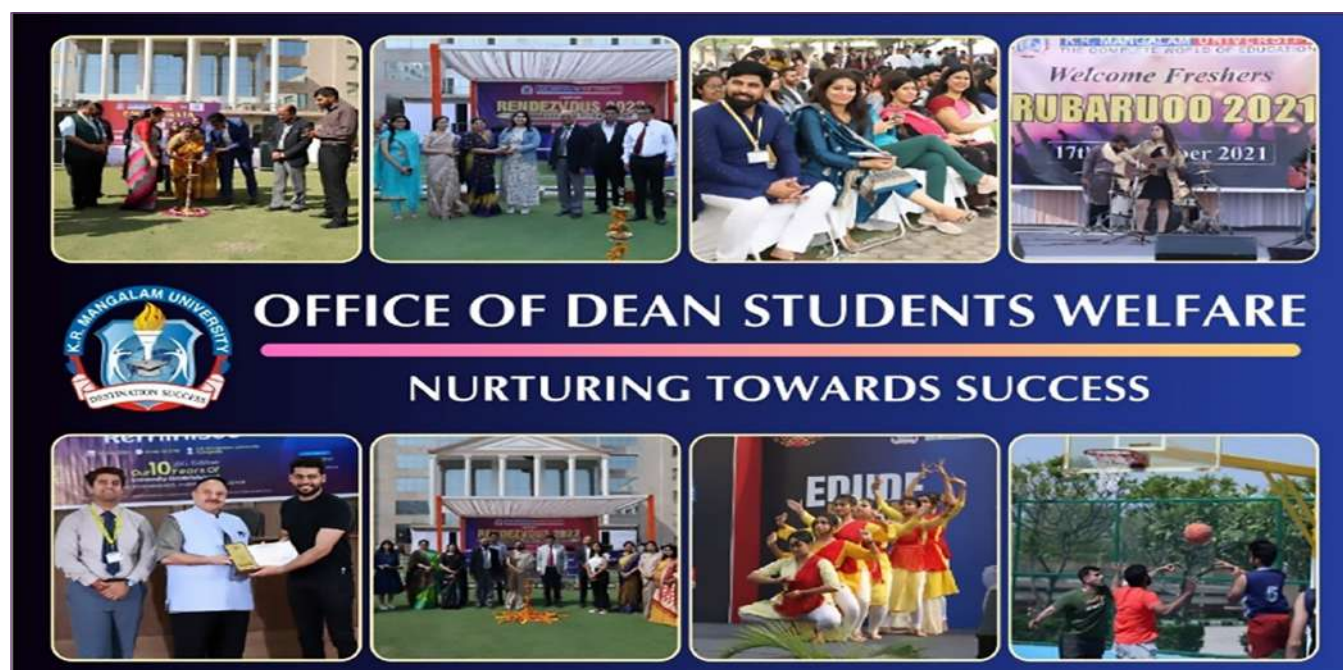

The Office of the Dean of Students Welfare (DSW) at K. R. Mangalam University plays a pivotal role in shaping a supportive, vibrant, and inclusive campus environment. Our mission is to ensure the holistic development of students by providing them with a platform to explore their talents, enhance their leadership skills, and engage in a wide array of extracurricular activities.

The Office proudly oversees 13 diverse clubs and societies, each focusing on areas such as academics, culture, sports, creativity, and social responsibility. These clubs offer students ample opportunities to participate in events and activities that promote teamwork, innovation, and personal growth. One of the key initiatives organized by the DSW Office is the Deeksharambh

(Students Induction Programme). This comprehensive programme is designed to welcome and orient new students into university life, helping them transition smoothly through interactive sessions, workshops, and activities. Deeksharambh sets the foundation for a fulfilling academic journey by introducing students to university resources, values, and a strong sense of community. In addition, we organize EDUDE Fiesta, a signature event that serves as both an inter-university festival and a fresher's day celebration. It brings together students from across institutions to participate in cultural, academic, and competitive activities, fostering camaraderie, creativity, and friendly competition. EduDe Fiesta is a platform where students can showcase their talents, network with peers, and celebrate the diversity and energy of campus life. At the heart of our student governance is the Students' Council, where representatives hold various posts and act as the voice of the student body. This council plays an instrumental role in collaborating with the DSW Office to address student concerns, plan events, and contribute to decision-making processes that impact student welfare. Under DSW, the Counseling and Mental Wellness Center, WeDost, at K.R. Mangalam University is dedicated to supporting the mental health of students and staff through comprehensive services. The center aims to create a nurturing environment that fosters emotional/mental well-being, personal growth, and academic success.

**Dr. Anjana Singh**  
Dean Student Welfare

**Ms. Sejal Mittal has achieved an outstanding milestone at the 22nd World Traditional Karate Championship in Villa Do Conde, Portugal, by securing silver medal in her category.**

**Labyrinthss Folk secures 1st position in the Lingayas Folk Dance competition and also win the Best of Zest 2024.**

**Avantra shines at GD Goenka University, winning 2nd prize in Solo Singing and Instrumental Solo.**

**The sports superstars of K.R. Mangalam University secure first position in RBSM Sports Academy in Volleyball and Badminton Single and Doubles.**

**Navarambh' emerges victorious, clinching the 1st prize in the fiercely contested Aura 2024 Halla Bol Competition organized by SGT University.**

**The Runway Rebels, the fashion group under the Cultural Club of KR Mangalam University, made a triumphant return with two awards and a cash prize**

## FUELLING DREAMS AND TALENTS THROUGH CLUBS AND SOCIETIES AT KRMU

At K.R. Mangalam University, our 13 dynamic clubs offer students an opportunity to explore their passions and cultivate vital skills beyond academics. These clubs encourage creativity, leadership, and collaboration, providing platforms for students to grow personally and professionally. By participating in club activities, students gain hands-on experience and develop a sense of community that extends to competitions, workshops, and events where they can shine.

The Model United Nations Club sharpens students' diplomatic skills through activities like resolution crafting, blogging competitions, and immersive trips. It encourages critical thinking and global awareness, preparing students to lead in international forums. The DIA Club fosters creativity with hands-on projects like coaster design and wall décor, giving students a chance to express their artistic talents and collaborate with peers. The Cultural Club is the heartbeat of campus celebrations, organizing vibrant dance competitions, flash mobs, and musical events. It offers students a chance to showcase their talents, build confidence, and gain recognition in various competitions. Similarly, the Dr. APJ Abdul Kalam Science Society encourages exploration through workshops and photography contests, allowing students to engage in scientific learning while honing their creativity.

The Mediaverse Club prepares students for the digital future by offering opportunities to produce podcasts, create mobile content, and attend masterclasses in social media marketing. This empowers students to build technical and creative expertise, which is valuable in today's media-driven world. The Computer Society of India KRMU Chapter equips students with technological skills through UI design competitions, AI talks, and tech expos, helping them stay ahead in the digital age. The Chetna Society is dedicated to social awareness, giving students a

platform to engage in meaningful discussions and activities such as therapeutic movement workshops and trust-building exercises. The Environment Club promotes sustainability, offering hands-on experiences like organic waste collection drives and bonsai-making workshops, helping students contribute to environmental conservation.

The Investment Club gives students practical financial knowledge through stock market trading and portfolio-building workshops, preparing them for future success in the financial world. The Management Society focuses on career development, organizing professional workshops, startup pitch competitions, and networking events to prepare students for corporate life. By joining these clubs, students not only gain specialized skills but also develop essential life skills such as leadership, teamwork, and communication. These activities foster a spirit of innovation, resilience, and collaboration, ensuring that students are equipped to take on future challenges with confidence. At KRMU, the clubs provide a rich, multifaceted experience that shapes students into well-rounded individuals ready to excel in their careers and beyond.

# Imagination **FROM** THE Students' **World**

## ऐसा ही है समाज

ऐसा ही है समाज  
ऐसे ही हैं हम  
मैं से तुम  
तुम से वो  
हमसे सब  
सब मैं हुम  
हम से सब  
परिचय नया नया है देते  
चेहरे खोये खोये हैं रहते  
दिल बेचैनी से है मरते  
लोग जवानी में है रोते  
हम ही नाश के है पुतले  
हम ही प्रेम के पंख लगाएंगे  
काश का सहारा लिए रोज़ सपने सजाए  
हम बच्चे पढ़े पढ़ाये, माँ बाप ने है पंख लगाये  
पर हमारी उड़ान से घबराये  
पर फिर भी हम यहाँ हैं खड़े  
अपना पिछला सब भुलाये  
अपना नाम आगे बढ़ाये  
अपनी नई पहचान बनायें  
अपनी जेब से बढ़कर करे  
फिर भी कम क्यों लगे ?  
क्योंकि हम देखम देख में रहे  
हम, हममें होना है खड़े  
पर क्या है ये समाज?  
तुम अपनी तरह सजाना  
थाली में हो खाना तो माथे से लगाना  
अगर हो सर पे छठ तो सबका साथ निभाना  
बदन पे कपड़ों से खुशियों को बुलाना  
और अगर हो ज़रूरत से ज्यादा तो बांट के घर आना ।

## BETTER TO LIGHT A CANDLE THAN TO CURSE THE DARKNESS

This proverb says that whenever we have difficulty in life, we should try to overcome the difficulty rather than curse the difficulty. Darkness is a bad thing because we will not be able to see anything in the dark. But just by cursing the darkness we will not get light, if we want to get light we have to get up and light a candle.

There is a very good analogy for this in everyday life. Many students after completing their education start searching for jobs. But because of various reasons they may not get a job, and they become dejected and disillusioned in life. If they start realizing that there are many opportunities in life, like jobs in the private sector, starting a small business, or opening a small shop they will not feel dejected. So, whenever we are in a difficult situation we should start looking at the reason for the situation and then gradually find a solution.

There are various options to come out of a difficult time and to overcome the hard time. Instead of blaming the stars and the situation, we should better take initiative and find solution to our difficulties...

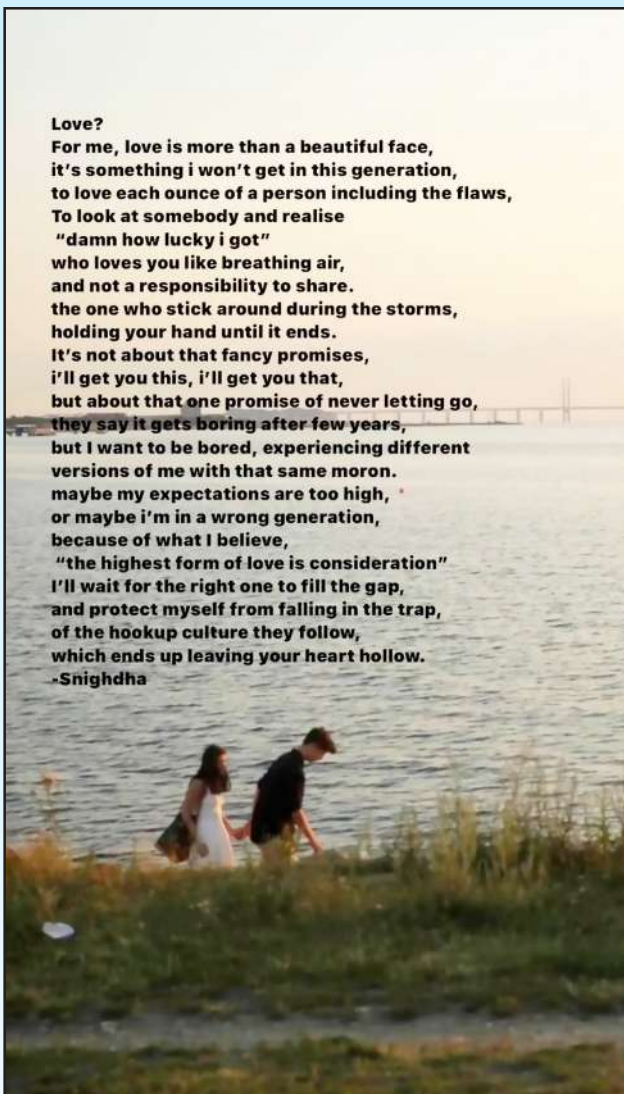

Love?

For me, love is more than a beautiful face,  
it's something i won't get in this generation,  
to love each ounce of a person including the flaws,  
To look at somebody and realise  
"damn how lucky i got"  
who loves you like breathing air,  
and not a responsibility to share.  
the one who stick around during the storms,  
holding your hand until it ends.  
It's not about that fancy promises,  
i'll get you this, i'll get you that,  
but about that one promise of never letting go,  
they say it gets boring after few years,  
but I want to be bored, experiencing different  
versions of me with that same moron.  
maybe my expectations are too high,  
or maybe i'm in a wrong generation,  
because of what I believe,  
"the highest form of love is consideration"  
I'll wait for the right one to fill the gap,  
and protect myself from falling in the trap,  
of the hookup culture they follow,  
which ends up leaving your heart hollow.

-Snighdha

SNIGHDHA JAGGA

## तुम हो

मेरी किताब की लिखी कहानी तुम हो,  
एक नूर सा रोशन चहरा,  
उसपर चस्मे मे छिपी दो आखो की कहानी तुम हो,  
फूलो में आयी बाहर की महक तुम हो,  
सुखी मट्टी पर गिरी बारिश की पहली बोछार तुम हो,  
जो तुम्हे देखकर आयी है  
मेरा चहरे पर मुस्कान  
उसकी अदाकारी तुम हो,  
मेरी किताब की लिखी पहली कहानी तुम हो.....  
मेरी किताब की लिखी पहली कहानी तुम हो,  
तुमसे आखें मिलाकर मेरी आखो मे  
जो असरु आये वो प्रेम की निशानी तुम हो,  
जिसे स्वप्न मे भी छुने से  
हो मनाई वो रूहानी कहानी तुम हो,  
सावन के मोसमों मे  
बारिश की लगी बहार तुम हो,  
जो सब पाप मिटादे उस गंगा  
जैसी पावन धार तुम हो, जो मुझे मुझसे मिलाए  
मेरे जीवन की वो जवानी तुम हो,  
मेरी किताब की लिखी पहली कहानी तुम हो.....  
मेरी किताब की लिखी पहली कहानी तुम हो  
जो धरती से सदा दूर रहा वो चाँद तुम हो,  
समुन्दर जिसका सपना देखे वो पहाड़ मेदान तुम हो,  
मेरी ज़मीन से बड़ा आकाश तुम हो,  
जो ना मिलकर भी हमेशा साथ रहा  
मेरी कहानी की वो पंक्ति तुम हो,  
मेरी किताब की लिखी पहली कहानी तुम हो।

KIRTI YADUVANSHI

## ECHOES OF SCHOOL DAYS

In the corridors of time gone by,  
Where laughter danced and dreams could fly,  
We walked the halls, both shy and bold,  
In uniforms, with stories untold.  
The chalkboard's dust, the ringing bell,  
The whispered secrets we'd never tell.  
From morning prayers to recess fun,  
Those days of youth, forever spun.  
We sat in rows, our minds at play,  
With lessons learned in a fleeting day.  
But beyond the books and every test,  
It's the bonds we made that we loved best.  
The playground games, the lunchtime cheer,  
The friends we held so close, so dear.  
Each scribbled note, each shared glance,  
A chapter in our sweet school romance.  
Teachers who guided with patient care,  
Who saw in us a spark so rare.  
They shaped our minds, our hopes, our dreams,  
Encouraged us to reach the beams.  
We grew with each assembly song,  
Through every right and every wrong.  
We faced the world with hearts so pure,  
In those simple days, we found our cure.  
And as the years rolled swiftly by,  
We left the nest, but with a sigh.  
For in our hearts, we hold so tight,  
The memories of those days of light.  
So here's to the classrooms where we grew,  
To the friendships that stayed so true,  
To the echoes of laughter, still so clear,  
Our school memories we hold dear.

## CANVAS OF COLLEGE

In the morning light, the campus wakes,  
With footsteps echoing, life it takes.  
We wander halls with minds set free,  
In search of who we're meant to be.  
Not just in books, but in each face,  
We find new worlds, a different space.  
Between the notes and classroom walls,  
We build our dreams as the future calls.  
There's more than grades, more than the test;  
It's in late-night talks and moments of rest.  
The laughter that fills the midnight air,  
The daring leaps we take without a care.  
From fests that sparkle under the moon  
To cramming for finals all too soon,  
We juggle it all in this crazy ride,  
Learning to trust the pull of the tide.  
Friendships grow like roots that bind,  
Through every setback, a stronger mind.  
And when the years drift into haze,  
We'll cherish these ever-winding days.  
For college isn't a place, it's time,  
A rhythm, a song, a silent rhyme.  
It paints us with colors wild and free,  
A masterpiece only we can see.

**KRISH AGARWAL**

### MY PLACE TO BE

In the quiet of dawn, where dreams softly lay,  
I awoke and pondered what dreams might say.

In the garden where butterflies play,  
With calmness in my heart, I walked in,  
Not thinking of how the day would be,  
All I wanted was to dance with the bees.

I followed the whispers of the wind's gentle sigh,  
Embracing each moment, without asking why.

In the silence of dawn, where time seemed to  
lie, Each moment cherished, serene and bright.

As the sun's rays began to gleam,  
The world awoke from its nightly dream.

Birds sang softly in the trees above,  
Their melodies filled the air with love.  
As I stood still, feeling nature's embrace.  
In nature's embrace, I found my place to be,  
A peaceful haven where I feel truly me.

PIHU BHARDWAJ

### ISN'T IT STRANGE

How different life can be...

Two bags or two lives?

One packed with books of knowledge,  
One loaded with responsibility of life

Same age, yet distinct life

Different lessons,

Different burdens,

While One gains bookish knowledge

Other one, the lesson of life...

DIVYA

I stand stargazing at a few crossroads

Hands vibrating i am a new lost soul

What world wants cost gold  
and here i am toting a bag full of coal

So my heart needs to harbour hope  
two moons of my eyes seek the sun

Twenty years of my life but my life just begun  
my purpose wont die I'm not sacred of a gun

I will shine beyond the skies like constellations  
Loopholes in my rhymes I'm not the perfect one

Just a creative problem child with aspirations

Universe collides new life births and old dies  
things never change only the perceptions in your  
minds

Reason why i wake up to walk through time

Not waste my potential save it from demise

i owe it to the guys who're by my side

I wanna take my last breath with my heart  
satisfied

NARAYAN

### DO YOU HEAR TO THAT VOICE

One that's inside you

Or ignore it like everyone do

People who actually listen might be few

That voice might be little but not dead

Maybe it's lost within you

Waiting for you to pull that thread

Do you hear that voice?

Do you?

DIVYA

## REMAIN THE WARMTH

If my guitar strings bends  
you still make a beautiful music  
Perfect date, which I can't attend  
begin with the pop and ends with a solve illusion.  
Harsh roads, flat wears, sun burn,  
company of you makes it touch with  
in hell but fun.  
From carrying the bag and finding the stall  
it all feels like a time in cozy fall.  
It ends with a tan but shows more of our teeth  
like a vintage book at a store,  
it's you all I need.  
It was our day, my time of admiring you  
like a crow who have desire for a deer.  
It seems effortless, when I took step forward for  
you!  
You records me meanwhile I capture you  
in heart by the windows of eyes.  
Yes, my heart melts when you deny  
to remove my lip stain from the collar  
don't shy to touch my feet  
without thinking of your honour.

**RISHITA JAIN**

## WINGS OF THE MIND

In the quiet hush of a starlit night, Where shadows  
dance in pale moonlight, The mind unfurls its  
secret wings, And takes to flight where the silence  
sings.  
Through clouds of dreams, it soars so high,  
Touching the threads of the velvet sky, Weaving  
tales in a silver hue, Where the old becomes new,  
and the false is true.  
A castle made of whispered thoughts, In fields  
where time is gently caught, Where rivers flow  
with liquid gold, And the stories of the past unfold.  
A forest where the trees all hum, To the rhythm of  
a timeless drum, Each leaf a note, each branch a  
string, In the symphony that the winds all sing.  
Here dragons rest in crystal caves, And mermaids  
rise from sapphire waves,  
Where every wish takes on a form, In the eye of  
imagination's storm.  
No bounds, no walls, no chains, no fear, In this  
realm where all is clear, A place where every heart  
can find, The endless power of the mind.  
So close your eyes and take a leap, Into the land  
where dreams run deep, For in this world, all can  
be, If you believe, and just let see.

**TARUN YADAV**

1 - हकीकत में नहीं  
पर मेरे ख्वाबीं में ही सही हम साथ त रहते हैं ,  
और अब तू और मैं दूर ही सही हैं  
जहाँ कहीं भी हैं कम से कम द नीखुश त रहते हैं ...

2 - कसी ने मुझसे पूछा कक उसमें ऐसा क्या खास है?  
तो मैंने कहा.....  
आखें नशीले, प्यारी हसी, कदल उसका नादीं है  
ममलती नहीं कहीं ऐसी मिसकी डींट में भी छु पा प्यार  
है,  
पागलपींती भी करती है पर उतनी ही समझदार भी है  
कु छ तो बात है यार उसमें तभी तो वो मेरे मदल के इतने  
पास है...

3- कसी ने मुझसे पूछा कक मेरी ये आँखों में नमी कै सी  
त मैंने कहा ये मेरे मेहबूब से मुझे त हफा कमला है,  
और मैंने त अपना सब कु छ कु बान कर कदया इस  
इश्क में  
पर बदले में त मुझे मेरे मेहबूब से कसफा ध खा ही  
कमला है...

4 - कभी जख्म तुझे ह त  
तेरा मरहम मैं बन जाऊँ ,  
कभी क ई परेशानी तुझे ह त  
तेरी परेशानी का हल मैं बन जाऊँ ,  
कभी डर तुझे लगे त  
तेरी कहम्मत मैं बन जाऊँ ,  
और काश अगले जन्म में तू क ई शहजादी  
और तेरा शहजादा मैं बन जाऊँ ...

VANSH JASROTIA

( 1). Tere pyaar me do pal ke zindagi bahut hai.

Ek pal ki hasi aur ek pal ki Khushi bahut hai.

Ye duniya mujhe jaane y ana jaane ,

Teri Aankhein mujhe pehchane , yhi bahut hai.

(2). Aap khud nahi janti ki aap kitni pyaari ho

Jaan ho humari , par jaan se bhi pyaari ho

Dooriyan bhi hone se koi farak nhi hota

Aap kal bhi humari thi , aaj bhi hamari ho

(3). Meine aapni shaamo me hissa sirf tumko diya

Har lamha sirf tera hi intezaar kiya

Ek dil hai, vo bhi sirf tujhko qurbaan kar diya.

Ishq tere alaawa , kisi ko na kiya.

(4). Meine apne sapno mei uska saath dekha tha

Mere hath mai , uska hath dekha tha Jab toota

mera armaan, tab maalum hua Meine kisi aur ke

hisse ka khwaab dekha tha.

ASHANK PRATAP SINGH

## **SHE'S RARE**

That huge pimple on her face is not rough,  
She is not "too much" or "too little" she's enough.

She is not being "over sensitive"  
her heart is soft, she will never lose herself again  
no matter at what cost.

She is not complicated, she's rare.  
barely understood by anyone, but she always  
cares.

She holds this magical light within her,  
Gazing at the beauty of moon &  
stars in winters.

She loves differently just like they do in fables,  
She feels the pain of the wise man sitting alone at  
the table.

Her superpower is to heal people, make them  
smile & give them comfort that no one gave her.

-Snighdha Jagga.

## **"WHAT IF?"**

If I were on the verge of death,  
I'd still remember you last time,  
And reminisce about the memories of you,  
About the memories we haven't made yet,  
About memories we manifested for.

I'd think about the past,  
I'd make scenarios thinking, "What if?"  
What if I tried to make things right?

What if there's still a chance?  
What if things would change?  
But certainly I already know,  
I know that I can't do anything.

I can't change my future,  
Cause I'd be on the verge of death.

## **DESIRES**

What do I desire?  
What is it, that I want?  
Or is it a need?  
I'm merely a human,  
Defied to fit in if I act like how I am,  
Or are my desires invalid?  
Or am I not allowed to fulfil them?  
Or Is it me, just overacting?  
Trying to know, if you even care,  
Or simply I just am the person,  
Who I think I am,  
Whom I have seen for long,  
But never knew who that person is?

## **A COWARD**

The boy she liked or,  
The boy she admired,  
Is the same one I'm envious of.  
Her emotions for him  
Always makes me jealous.  
I always like to watch that smile,  
Which was never meant for me.  
I always like to see those eyes sparkle,  
Which never sparked seeing me.  
I prefer to stay keep,  
I prefer she's not knowing the truth,  
I prefer to let go off feelings,  
But it makes me sad that I can't.  
What does it makes me? A coward,  
I guess, but a lover for sure.  
I'd write these feelings to her,  
But she'll still think it's nonsense.  
I'd write these emotions to her,  
But she'll just kick it away.  
I'd made sure that she feels loved,  
But she'll not feel the love.  
Ig The boy she likes  
Is The one for her.

# K.R. MANGALAM ADMISSIONS DEPARTMENT

## A Vision for Excellence

K.R. Mangalam University (KRMU) is committed to becoming a world-class institution, fostering interdisciplinary education, groundbreaking research, and innovative thinking. Our goal is to nurture socially responsible, lifelong learners who contribute to national progress. Our admissions department offers a straightforward and efficient process to ensure a smooth transition into higher education.

**Hands-On Learning:** Students from Pahal Design India had an exciting time at K.R. Mangalam University, participating in various activities and workshops. They gained a comprehensive understanding of the programs available at the School of Architecture and Design and explored the career support, global learning opportunities, and other benefits offered by KRMU.

**Career Guidance:** Students from Government Senior Secondary School, Sohna, Gurugram, benefited from personalized counseling sessions, exploring various career paths and scholarship opportunities.

**A Day of Inspiration:** Viaan International School students had a campus visit and insightful session

with Hon'ble Vice Chancellor Prof. Raghuvir Singh. The interactive exchange allowed students to clarify their queries and gain valuable insights.

KRMU's outreach team has connected with over 50,000 students and other stake holders across India through extensive counseling sessions and career fairs. Our team has traveled to numerous states, including Assam, Delhi, Uttar Pradesh, Odisha, and more, to provide guidance and support to aspiring

students. KRMU's dedication to quality education has been recognized with the prestigious Education Excellence Award 2024. Showcasing Talent: KRMU students participated in the Delhi Times Fashion

Week 2024, demonstrating their creative prowess and inspiring aspiring fashion designers to guide aspiring students to get motivated and make informed decisions.

# WE DOST: COUNSELLING CELL

## Counselling and Mental Wellness Centre (WeDost)

Counselling and Mental Wellness Center, WeDost, at KR Mangalam University in Sohna, Gurgaon, is committed to providing comprehensive mental health support to students and staff. Our mission is to foster a nurturing and inclusive environment that promotes emotional well-being, personal growth, and academic success. The Counseling and Mental Wellbeing Centre aims to provide quality mental health care for students and staff, addressing personal, educational, and psychological challenges. It focuses on developing coping skills, enhancing self-esteem, and supporting individuals in overcoming stress and anxiety. The Centre also assists in educational and vocational planning, fostering mutual understanding between students and teachers

### Who Can Seek Help:

Anyone who is a registered student or staff of K.R. Managalam University

Services Offered: The Counselling Cell will offer a range of services including, but not limited to:

Individual Counselling: Students and staff members can schedule private sessions with counsellors to discuss personal, academic, or emotional concerns.

Group Counselling: Small group sessions will provide students and staff members with a platform to connect with peers facing similar challenges, fostering a sense of community and shared support.

Workshops and Seminars: The Counselling Cell will organize workshops and seminars on topics such as stress management, time management, study skills, building resilience etc.

Crisis Intervention: Trained counsellors will be available to address urgent and critical situations that may arise.

**EMAIL ID:** counselling@krmangalam.edu.in

**VENUE:** Counselling Cell, Ground Floor, A Block, K.R. Mangalam University.

## CENTER OF EXCELLENCE-AI

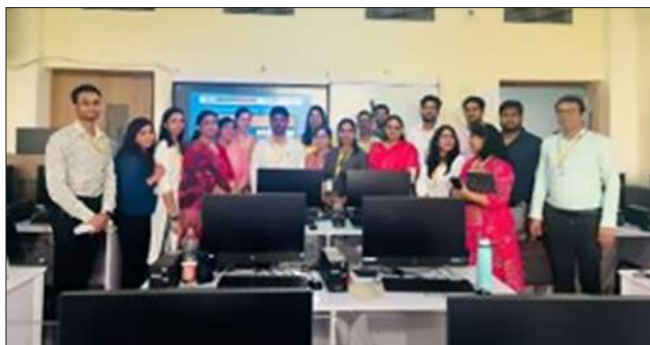

## WORKSHOPS/ SEMINARS

**AzureDevDay-Cloud Native Tour : “Building Cloud Native Application with Ballerina and Choreo-Workshop” (21st February 2024), in collaboration with the Computer Society of India.**

## Empowering Research Excellence: "Tools for Effective Scientific Writing-Workshop" (11 May 2024)-Resource Person: Dr. Rupesh Kumar

### SUMMER INTERNSHIPS

COE-AI offers six-week internships in Machine Learning and Big Data for engineering students, in collaboration with IIT Guwahati and CDAC Noida. These internships provide hands-on experience with cutting-edge technologies, exposure to real-world challenges, and opportunities to work

alongside experts in the field, enhancing both technical skills and industry knowledge. Notably, the top six students from the internship will have the opportunity to work in the labs at IIT Guwahati, based on their outstanding project performance during the internship.

**K.R. MANGALAM UNIVERSITY**  
THE COMPLETE WORLD OF EDUCATION

**Centre of Excellence-AI, SOET, K R Mangalam University**  
organizes  
**a comprehensive six-week summer internship on**  
**MACHINE LEARNING**  
**"MASTERING MACHINE LEARNING**  
**A HANDS-ON SUMMER INTERNSHIP"**  
**1st July to 14 August 2024**

This internship is designed to provide you with hands-on experience and in-depth knowledge in the rapidly evolving field of Machine Learning.

**Internship Content**

- Week 1: Comprehensive Introduction to Machine Learning with Python: Concepts, Implementation, and Hands-on Project
- Week 2: Advanced Classification Techniques: Logistic Regression and K-Nearest Neighbors
- Week 3: Mastering Decision Trees and Random Forests in Machine Learning
- Week 4: Exploring Support Vector Machines and Ensemble Techniques in Machine Learning
- Week 5: Deep Dive into Computer Vision: CNNs, Object Detection, and Hands-on Project
- Week 6: Foundations of Natural Language Processing (NLP) and Deep Learning with RNNs/LSTM

**Key Features:**

- Hands-on projects and real-world applications
- Interactive sessions with Machine Learning experts and industry professionals
- Access to Machine Learning tools and resources
- Networking opportunities with peers and mentors

**Duration: Six weeks**  
**Course Fee: ₹2000**

**Completion Certificate: Provided upon successful completion of the internship**

If you are interested in participating, please fill out the registration form, link given below. The course fee of ₹2000 must be paid to confirm your spot in the internship.

University Campus: 5, 611-408088 / 88887010-12 / 88887012  
www.krmangalam.edu.in | welcome@krmangalam.edu.in

**BIG DATA TECHNOLOGY**

**Course Name: Big Data Analytics**

**Course Duration: 100 Hrs**

**Centre: C-DAC, Noida**

**Start Date: July, 2024**

Big data Analytics is the highly complicated method of analyzing big data to extract information, such as industry trends, hidden patterns, correlations, and customer preferences, that can assist companies in making smart business decisions. Big Data analytics is now a vital tool for businesses of all kinds operating in a variety of sectors. Big data analytics tools and software can help companies achieve data-driven decisions that can enhance the results of their business operations.

**Course 1**

- Introduction to Database, DBMS
- DB Normalization
- Hadoop Ecosystem
- Map Reduce & Apache Hive
- Spark, Scala Operation
- Introduction to Python
- Data Science and Data Analytics using Python
- Data Pre-processing
- Visualization using Python
- Machine Learning Algorithms

**Capstone Project**

**Course 2**

- Introduction to BigData
- Hadoop Ecosystem
- Map Reduce & Apache Hive
- Spark, Scala Operation
- Data Science and Data Analytics using Python
- Data Pre-processing
- Python Libraries (Tensorflow, Keras)
- Machine Learning Algorithms
- Introduction to Deep Learning, Neural Network
- Deep Learning Algorithms (ANN, CNN, RNN)
- Open AI

**Capstone Project**

# National Institute of Technology - Hamirpur

Three-week internships at the National Institute of Technology (NIT) Hamirpur for engineering students. These internships offer valuable exposure to advanced research and development projects, allowing students to gain practical experience and insights into innovative technologies under the guidance of NIT Hamirpur's esteemed faculty.

## CENTER OF EXCELLENCE-ROBOTICS AND AUTOMATION

The Center of Excellence in Robotics and Automation was established on 25th January 2024 to drive innovation and research in emerging technologies such as Drones, Embedded Robotics, and IoT. Collaborating with a Government-Approved Flying Academy and E-Yantra IIT Bombay (ELSI). The Center is dedicated to fostering advancements in robotics and automation for industry, academia, and society.

### Significance and Achievements

Robotics and automation are pivotal for the future of sectors like industry, healthcare, agriculture, and more. The Center of Excellence plays a key role in:

Advancing research and development in cutting-edge technologies.

Bridging the gap between academia and industry through strategic collaborations.

Training the next generation of professionals in robotics and automation.

Supporting startups and entrepreneurs with incubation opportunities and resources.

Enhancing the institution's reputation as a leader in the technological domain.

### Key Activities and Milestones

Conducted a Robotics and Drone-Making Bootcamp at IIT Mandi (25th–30th Dec 2023), providing hands-on experience to 150 students, all of whom received certificates after project completion and evaluation.

Facilitated 16 internships with prestigious IITs, enriching students' technical expertise.

Awarded DGCA-Approved Remote Pilot Certification for 12 students in operating drones of small and medium class (up to 50 kg).

Supported two student startups with pre-incubation grants through KEIC (K R Mangalam University).

Achieved the publication of 8 proceedings/journals, filed 1 patent, and completed 20 projects focused on

innovative solutions.

Organised Summer Internship of one month on Basics of Embedded Systems for students.

Granted with DST award of RS 50000 consecutively for 2 years for National Technology Day 2024 & 2023

Organised megaevents like Mindbenders-A hardware-based project competition based on innovative projects with 300+ participation

### Future Vision of the Center of Excellence in Robotics and Automation

The Center of Excellence in Robotics and Automation aspires to become a global hub for innovation, education, and industry collaboration in emerging technologies. Its future vision encompasses:

- Establishing dedicated research labs for AI-integrated robotics, autonomous drones, and smart IoT systems.

- Pioneering solutions in areas like precision agriculture, healthcare automation, and disaster response through advanced robotics.

- Strengthening intellectual property contributions,

including patents and innovative prototypes.

■ Building strong alliances with top-tier research institutions, industries, and government agencies to align technological advancements with societal needs.

■ Introducing specialized programs and certifications in robotics, drone technology, for students and professionals.

■ Establishing a robust startup incubation framework to nurture innovative ideas and support commercialization.

■ Encouraging product development in automation, robotics, and drone-based solutions tailored to global markets.

■ Organizing international conferences and symposiums to exchange knowledge and foster global collaborations.

## 2. MEDIA CIRCULATION OF THE EVENT ACCOMPLISHMENT

### राष्ट्रीय प्रौद्योगिकी दिवस-2024 : केआर मंगलम विश्वविद्यालय में शानदार समारोह

**सवेरा न्यूज/कास**

सवेरा न्यूज, 20 मई : राष्ट्रीय प्रौद्योगिकी दिवस के शुभ अवसर पर केआर मंगलम विश्वविद्यालय मुद्रगांव ने हरियाणा राज् विज्ञान, नवाचार और प्रौद्योगिकी परिषद के सहयोग से डा. पुजा आचार्य को डीएसटी अनुदान दिया। 14 मई, 2024 को एक जीवंत उत्सव की मेजबानी की गई। यह दिन पोस्टरिंग- II, 1998 में भारत द्वारा किए गए परमाणु परीक्षणों को याद में मनाया जाता है। यह कार्यक्रम उन तकनीकी उपलब्धियों को पहचानने और मनाने के लिए एक मंच के रूप में कार्य करता है जिनमें हमारी प्रगति में महत्वपूर्ण योगदान दिया है। राष्ट्र, नवाचार और सहयोग पर ध्यान देने के साथ, उत्सव का उद्देश्य प्रौद्योगिकीविदों की अगली पीढ़ी को प्रेरित और सशक्त बनाना है। कार्यक्रम की शुरुआत प्रौद्योगिकी,

शिक्षा और उद्योग के क्षेत्र के प्रतिष्ठित गणमान्य व्यक्तियों द्वारा उद्घाटन समारोह दीप प्रज्वलन के साथ हुई। केआर मंगलम विश्वविद्यालय के कुलपति प्रो. रघुवीर सिंह ने भाषण दिया और भविष्य को आकार देने में प्रौद्योगिकी की महत्वपूर्ण भूमिका पर जोर दिया।

विशिष्ट अतिथि डा. राकेश सिन्हा, डीन रिसर्च, प्रो. मेहराज उद्दीन मीर ने नवीनतम प्रगति और विभिन्न क्षेत्रों पर उनके संभावित प्रभाव पर अंतर्दृष्टि साझा की। एसओईटी के डीन प्रो. पंकज अग्रवाल ने छात्रों को इस दिन के महत्व के बारे में बताते और उन्हें अपने मूल्यवान कौशल के माध्यम से राष्ट्र को सशक्त बनाने के लिए प्रेरित किया। डा. पुजा आचार्य ने सभी अतिथियों, विद्यार्थियों, प्रख्यात वक्ताओं का अपनी उपस्थिति दर्ज कराकर इस कार्यक्रम को सफल बनाने के लिए स्वागत किया।

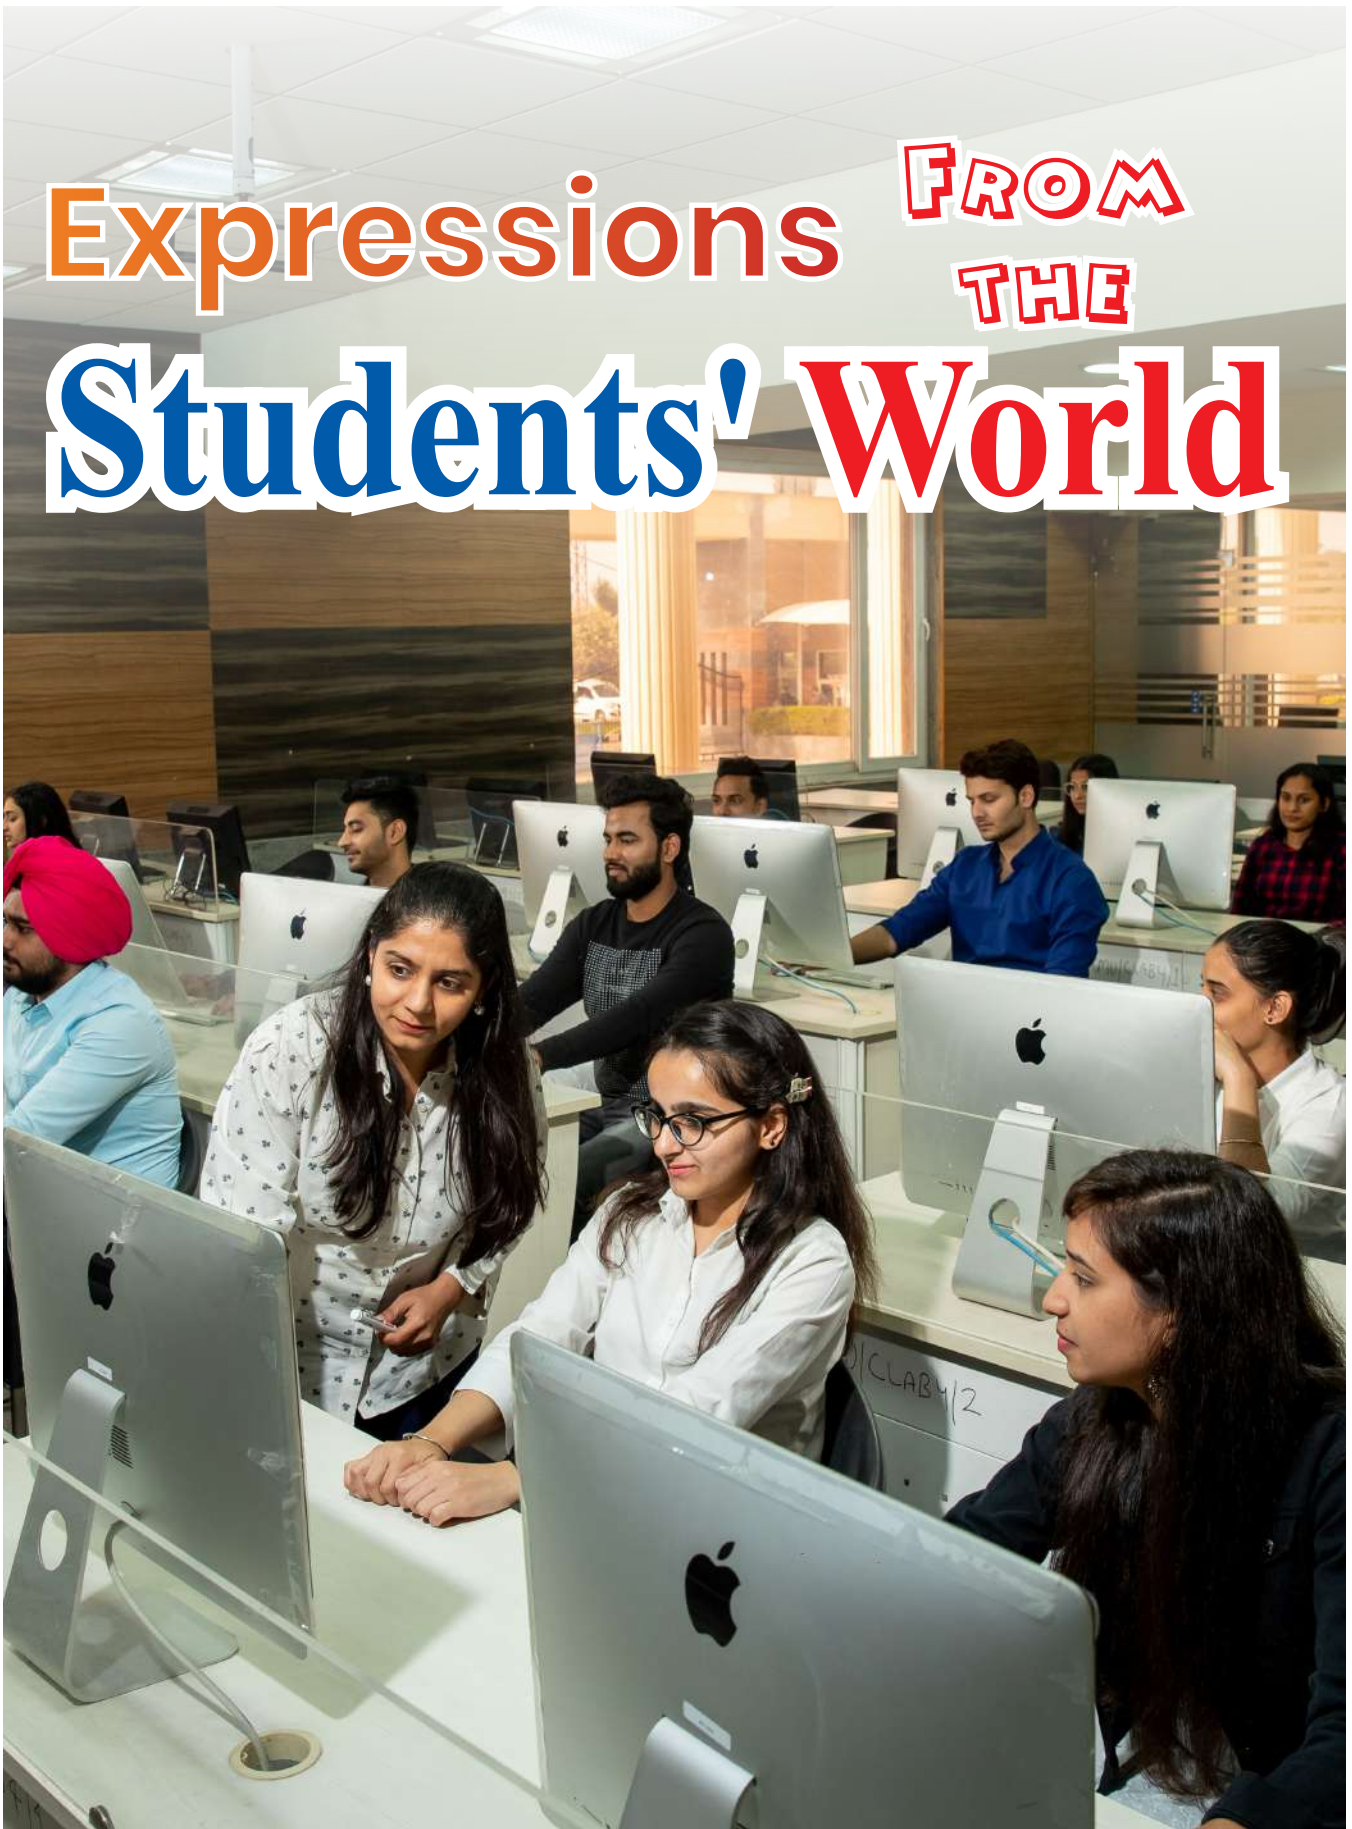

- Promoting the use of robotics and automation for sustainable development, including renewable energy, water management, and climate resilience.
- Creating solutions that address real-world challenges, such as food security, healthcare delivery, and smart urban infrastructure.

# Expressions FROM THE Students' World

# BREAKING THE CHAINS: A NEW PERSPECTIVE ON DRUG ADDICTION

Nowadays, the world is facing a significant challenge against drug abuse. India ranks 18th out of 30 countries in drug addiction, and Uttar Pradesh alone contributes to around 17.3% of drug abuse in India, followed by other states. The harmful impact of social media, Bollywood, and the sudden wave of Western culture has worsened this problem. Bollywood movies and social media platforms glamorize drugs and build curiosity in the new generation towards them. They start consuming out of curiosity but get addicted and have to pay a hefty price for it. This puts our country's culture and development on the edge of collapse. It also gives a boost to crime, as when individuals get addicted, and they have no money to buy drugs, they indulge in theft, selling their household items, and even commit serious offenses such as kidnapping and murder.

Drugs make people lose control over their actions. Many laws have been made to stop the flow of drugs and punish drug dealers, such as IPC 276, Section 27 of the NDPS Act, and many more. Our culture and youth are being destroyed by the consumption of these substances. Younger generations have curiosity towards drugs, which is driven by Bollywood movies, social media platforms, the wave of Western culture, peer pressure, the desire to look "cool" among friends, and a lack of awareness and education. However, many schools and colleges have now taken steps such as drug abuse awareness campaigns and conducting seminars to raise awareness and guide the new generation to avoid the path of regret and death, choosing instead the path to live life to the fullest. By spreading awareness about the harms of these substances, we can save many lives.

Also, around 44% of minors arrested for juvenile delinquency claimed to have committed crimes in order to buy drugs. As reported by the NCRB, rates of juvenile delinquency increased by 2% from 2018-19, wherein 75.2% of all juvenile delinquents were

aged 16-18 due to drug abuse.

[https://haryanapolice.gov.in/policejournal/pdf/drug\\_addiction.pdf](https://haryanapolice.gov.in/policejournal/pdf/drug_addiction.pdf)

These minors are first drawn into drug addiction, and after they get addicted to it, they are forced into crimes like murder, theft, and kidnapping or are asked to surrender for others' crimes in exchange for drugs. This often traps them in a vicious cycle, ultimately ruining their lives.

This drug addiction leads the future of the young generation to jail or the brink of death. The use of unsafe or reused syringes for drugs may cause diseases like HIV and many other horrific illnesses. These children often lack proper parenting, education, and awareness. Peer pressure and other factors steer them down the path of confusion and bad choices.

# PAGANISM: ECHOES OF ANCIENT TRADITIONS IN THE AZTEC CIVILIZATION

## AN INTRODUCTION TO PAGANISM AND THE GREAT AZTEC CIVILIZATION.

Since the dawn of time, men have always believed in a higher being, a spirit, universe and even aliens and planets who should be worshipped for, they keep this world orderly and balanced. Paganism is one such broad concept that has shaped our society and its practices. Paganism is a diverse and ancient form of spirituality that consists of a variety of practices such as polytheism (worshipping multiple deities), nature worshipping (feeling a deep connection to nature and viewing it as spiritual), animism (believing that landscape, animals and natural objects possess a spirit), rituals and festivals and mythology to instil moral values amongst the followers. The beginning of paganism is not known or specified but it is believed that multiple civilisations have practiced paganism in one or the other form and it has naturally evolved over thousands of years. One such prominent ancient civilisation is the Aztec civilisation of Mexico. Initially, believed to be a nomadic tribe called Mexica, the Aztec civilisation is considered to be one of the most influential and important culture in Mesoamerica. They were known for their complicated social structures and rich culture and traditions. The social structure of the Aztecs was very structured and had hierarchy-based society. The emperor was known as the Tlatoani and then came the nobles, warriors, merchants and the common men. For the Aztecs, their religion was extremely important. The Aztecs practiced polytheism which is the practice of worshipping multiple gods or deities that were all associated with different aspects of life. They had rituals and ceremonies for their deities and would also sacrifice humans to appease the deities. Some of the most important deities of the Aztecs are:

Huitzilopochtli: The god of war and sun and the patron deity of the Aztec capital, Tenochtitlan

Quetzalcoatl: The feathered serpent god who was associated with knowledge, wind and creation

Tlaloc: The god of rain, fertility and water and was considered to be extremely important for agriculture.

In this article, we will be discussing about the effects of paganism on the Aztec society in brief.

## ROOTS OF PAGANISM IN THE AZTEC SOCIETY

For the Aztecs, religion was extremely important for it helped in shaping their society and its complex social structure. Their belief in their gods was so strong that they'd even go as far as sacrificing their fellow humans to appease the deities as many of the deity rituals called for a human sacrifice.

Like mentioned earlier, the Aztec society was highly structured and complicated. They had a deeprooted love for religion and it could be seen in all aspects of their society.

In their society, the priest was the most respected and important figure as the people believed that they were the chosen ones and were highly favoured by the deities. They belonged to the elite section of the society and wielded great power over the political and religious matters. Sacrifices, which were extremely common in the Aztec society were performed by the priests in ceremonies as it was believed that the gods would bless and protect the land and its people.

The kings were called Tlatoani and they were seen as godly figures who were responsible for maintaining order and harmony. A lot of the decisions made by Tlatoani were influenced by religion and it was believed that the more successful a ruler's reign was, the more favoured he was by the gods.

(It should be noted that kings and nobles were often deeply involved in the religious practices and ceremonies.)

The Aztecs built grand pyramid like structures and

temples to honour the gods and worship them. Their architectural structure revealed that not only did religion play a huge role in their administration, it also played a significant role in their architecture. They also had sacred spaces designated for ceremonies and rituals, indicating the grandness and importance of rituals and ceremonies. One such famous structure is the Templo Mayor for Huitzilopochtli and Tlaloc.

In their daily life, the effect of paganism could be seen as the people would study subjects like astronomy to understand the celestial movement and form calendars. Religious training was also promoted as the mythology, religious texts and rituals could be passed down from one generation to another.

In warfare as well, the effects could be seen as the Aztecs would wage wars to capture prisoners in order

to sacrifice them to the gods to keep them happy and every win was celebrated with ceremonies.

## CONCLUSION

Paganism was the essence and foundation of the Great Aztec civilisation. It influenced their society in every way and its effects can still be seen today among its remaining followers. Their practice had played an integral role in shaping their social structure and hierarchy, politics, architecture and has provided a deep sense of understanding amongst us that we are not very different from them and that the echoes of paganism can still be felt, even in our modern society.

## YES I'M PERFECTLY IMPERFECT

While we all strive for perfection, we often overlook what we really hanker for. Matching upto futile standards, questioning your potential is the new normal. We all have setbacks, some keep cribbing while some like to forge ahead. Today's narrative of self acceptance is just a façade. Putting a fabricated and deceptive story as their ultimate reality, making people feel belittle about themselves. It's high time we should embrace what we have and stop seeking for other's validation. Obsessing over social media influencers or celebrities skin, hair and even what they eat or wear, not acknowledging the rigmarole they go through.

It was once said "Beauty lies in the eyes of the beholder" but now people believe "you're not ugly, you're just poor" this shows how being beautiful has changed variably. If we dive into today's mentality, beauty is very conditional today, it's not from the heart but what we see from eyes. We've stereotyped gender roles, a woman should be gentle, beautiful, delicate and soft-spoken whereas a men should be loud, muscular, reliable but if any of these qualities misses a spot it all becomes conditional and people feel it's one's compulsion to be with them.

There are already gazillion of problems in our lives, let's not make it worse. The easiest thing is being yourself, but today it's an arduous task. Today, "Delulu is the the solulu" you may fool the world, but never do it to yourself. I'm not trying to emphasize, that you should address your flaws to the whole world, but self-confrontation and acceptance can be incredibly liberating.

# MARITAL RAPE

**"A single stroke of Sindoor cannot allow any man to do anything with his wife"**

## #Introduction

"Marriage is not a license for abuse, consent is mandatory, always".

In The recent Act of Bhartiya Nyaya Sanhita which replaced The IPC of 1860 in India; Marital rape still has not been recognised as an offence and will continue to come under the ambit of domestic violence. In today's world where almost 100 countries have considered marital rape an offence; India continues to remain in the list of rest 36 nations, where forced sexual intercourse done by a married men with his wife is not considered an offence. This article aims to throw light on the historical background behind such beliefs, Arguments in favour and against of criminalising the marital rape, case laws and relevant Supreme court guidelines.

## Historical Background-

During 1900 BCE, In Babylonia(a city) located at central southern Mesopotamia, a man can be sentenced to death if found or believed to have had sexual intercourse with another man's wife or daughters.

In ancient times, an act of rape with a Women was treated as "crime against the property" of their father or husband and not against the women individually.

The Doctrine of Coverture is to be held responsible for such belief, according to this doctrine, a woman had no independent legal identity of her own ever, before her marriage her father is to be considered as her owner and after marriage her identity was merged with that of her husband.

Later, in 1800s, when India was under the influence of British Empire, IPC was passed by the First Law Commission; which recognised offences of sexual violation, physical abuses, rape and other such offences as "crime against women", heavily criticising the idea of women being treated as

mere properties of their husband and father and successfully establishing independent legal identity of a women.

But the concept of "marital rape" was still not touched by the then jurists and law makers based on the beliefs of Hale's Doctrine, which suggested-

"Husband can't be guilty of rape. By their mutual matrimonial consent and contract, the wife has given up herself in the institution of marriage to the husband"

Section 375 of IPC (1870) was heavily influenced by these doctrines and The BNS (Bhartiya Nyaya Sanhita) Act of 2024 continues to present women as weaker sex.

## Data Analysis-

- About 70 per cent of women in India are victims of domestic violence. National Crime Records Bureau's (NCRB) 'Crime in India' 2019 reported that a woman is raped every 16 minutes and every four minutes, she experiences cruelty at the hands of her in-laws.
- National Family Health Survey (NFHS) 2015-16 data indicates that an estimated 99.1 per cent of sexual violence cases go unreported and that the average Indian woman is 17 times more likely to face sexual violence from her husband than from others.
- According to one study by the UN Population Fund, more than two-thirds of married women in India, between the ages of 15 to 49 have been beaten, raped, or forced to provide sex.

## Arguments in favour-

### (1) Violation of Article 14-

Article 14 establishes equality before law and provides equal protection of laws to all citizens. However, non- recognition of marital rape results in discrimination of women on the grounds of being married or unmarried. It is being presumed that a

married women cannot be subjected to rape by her own husband, and that being married signifies her "implied consent" to indulge in all kinds of sexual activities.

### **(2) Section 498(a) does not suffice-**

#### **section 498(a) reads as-**

"Whoever, being the husband or the relative of the husband of a woman, subjects such woman to "cruelty" shall be punished with imprisonment for a term which may extend to three years and shall also be liable to fine."

Effects of marital rape has more severe and long-lasting consequences for woman because of the simple fact that the rapist is none other than her own husband. There are physical effects and psychological effects which many of them are unable to overcome and makes such a woman spend her life in trauma. Do these milder and unspecified laws actually provide the necessary relief?

### **(3) Violation of Right to autonomy under article 21-**

Justice Rajiv Shakhder, Delhi High Court, states that the right to withdraw consent from having sexual activity forms the core of women's right to life and liberty.

Hence, the concept of marital rape, where a wife is forced to serve a perpetual consent to have sex with her, which means girls, and women who are married have no individual rights like-

- Right to say NO
- Right to live with human dignity
- Right to make choices
- Right to privacy
- Right to life and personal liberty
- Right against inhuman treatment
- Right to health

the abovementioned rights are covered under the purview of "ARTICLE 21" which assures an individual

protection of life and their personal liberty.

### **Arguements against the criminalisation of marital rape -**

(1) In Delhi High Court in January 2022, the Union Government stated that "criminalising rape would thwart the marriage institution and become an easier way for harassing spouses."

(2) Justice Dipak Misra, the former Chief Justice of India, suggested that "in my opinion, marital rape should not be regarded as a crime in India, as it will create anarchy in families, and our country relies on its family platform for its success of upholding family values."

(3) Women may feel pressured to report marital rape due to social stigma, child impact, and family shame.

4) The wife's testimony is often the only whole sole evidence of the rape.

(5) There may have been consensual sexual activity between the spouses before the rape, so DNA or semen samples would be irrelevant.

(6) Both the husband and wife would have engaged in sexual relations frequently, it is almost impossible to prove the presence of consent each and everytime.

### **Relevant case laws**

(1) According to the Supreme Court in State of Karnataka vs Krishnappa (1993), "sexual violence, as well as being humiliated, is an unlawful intrusion into the privacy and sanctity of a woman. Likewise, the court ruled that non-consensual sexual interaction amounts to physical and sexual violence."

(2) In Suchita Srivastava vs Chandigarh Administration (2009), the Supreme Court equated the right to choose a sexual activity with Article 21 (right to personal liberty, privacy, dignity, and bodily integrity).

(3) The Supreme Court recognised the right to privacy of all citizens in Justice K.S. Puttuswamy vs Union of India (2017). An important aspect of

privacy is decision-making privacy, particularly when it comes to decisions about one's sexuality, procreation, or intimate relations.

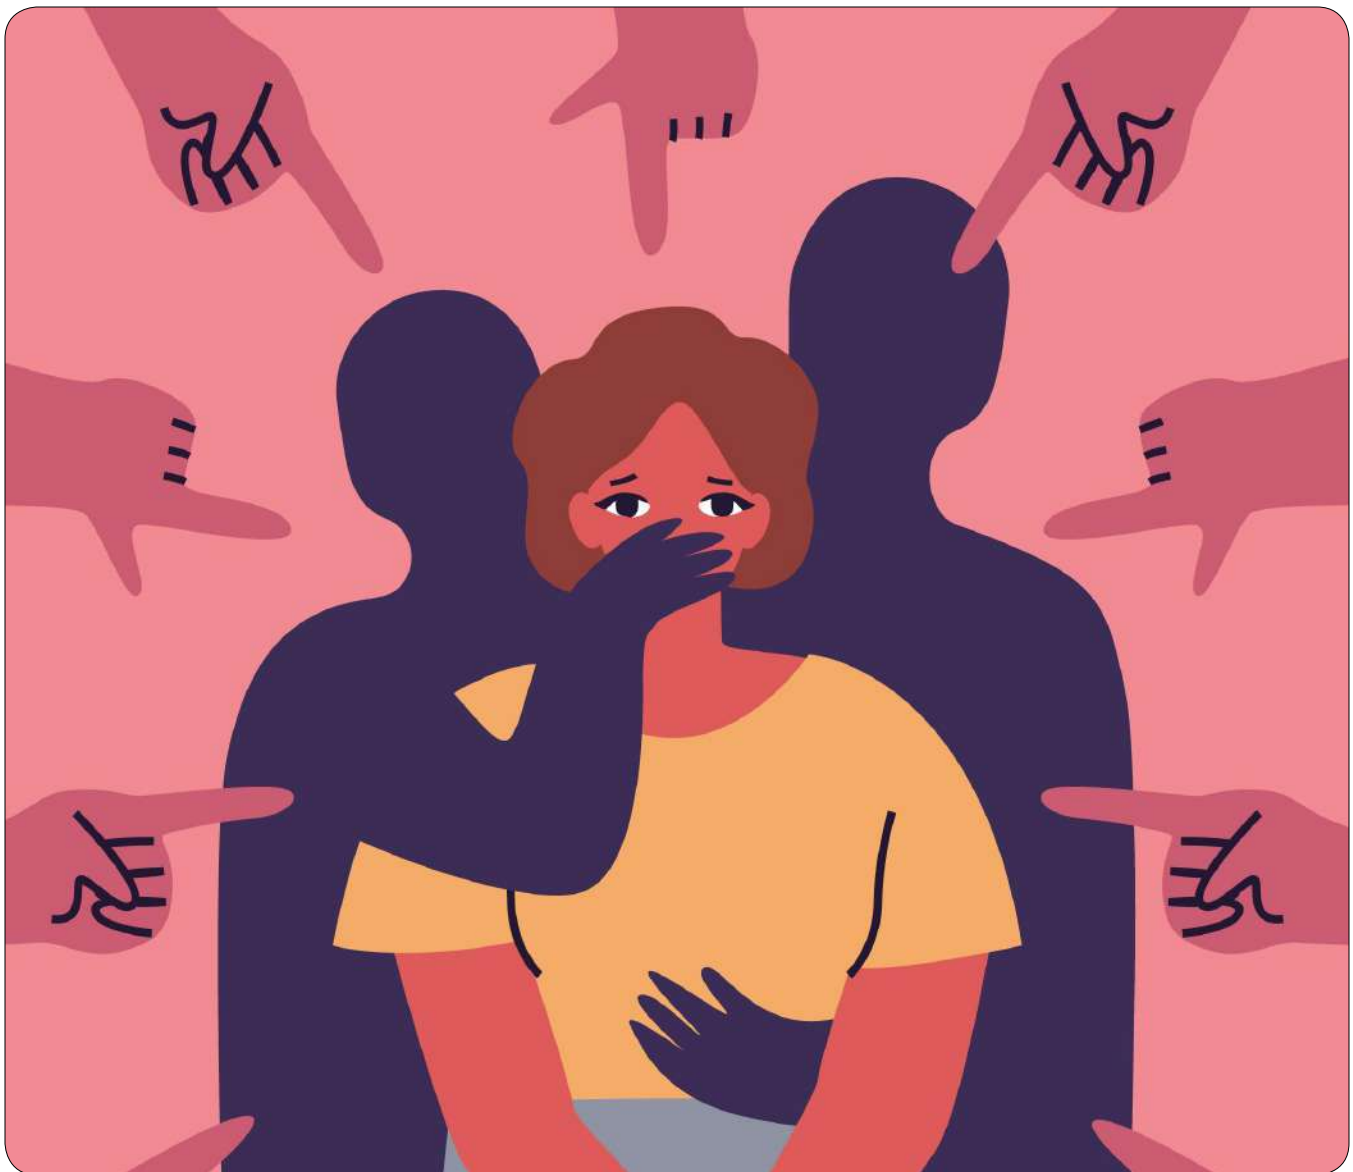

(4) In *Joseph Shine vs Union of India* (2018), Justice Chandrachud posed the question of whether a woman or a man loses sexual autonomy when they marry. I think 'no'. In addition, he noted that "the right to refuse sex should also exist after marriage."

### Conclusion-

Can sheer procedural or evidentiary concerns stop law from recognising such a heinous offence. There are challenges for sure and equal regard should be paid to the rights of the accused or men. But the procedural concerns cannot overtake the principled

approach that the law must take. The slow and delayed pace of litigation, corruption, inefficiency within the police machinery has dampened the spirit of many other laws too. false allegations can be made by anyone on any offence. procedural concerns should not be used as a weapon to assert the misogynist notion that women lie, and their statements are unreliable. The real concerns of safeguarding the rights of the accused should be met with legislative and judicial expertise. only a smart legislative approach can address the evidentiary and procedural concerns and hence,

MARITAL RAPE SHOULD BE CRIMINALIZED IN INDIA, BUT WITH CAUTION.W

# OVERCOMING FEAR: STRATEGIES FOR GROWTH

Fear is a universal emotion, and as adults, it can often feel more complicated than it did in childhood. Facing fears, whether they stem from personal insecurities, career challenges, or social anxieties, can be daunting. However, overcoming these fears is essential for personal growth and overall well-being. Here are some effective strategies to tackle fear as an adult, first and foremost is to Acknowledge and Understand Your Fear. The first step in overcoming fear is to identify and understand it. Reflect on what triggers your fear and how it affects you. Writing down your fears and analyzing their root causes can demystify them and reduce their power over you. Secondly, Challenge Negative Thoughts, Fear often thrives on irrational or exaggerated thinking. Practice cognitive restructuring by challenging these negative thoughts with evidence and reasoning. Ask yourself if the fear is based on facts or assumptions and counteract it with positive affirmations. Thirdly, Gradual Exposure, facing your fears incrementally can help desensitize you to them. Start with small, manageable steps that gradually lead you towards confronting the larger fear. This process, known as gradual exposure, allows you to build confidence and reduce anxiety over time. Develop Coping Skills, Equip yourself with coping mechanisms to manage fear. Techniques such as deep breathing, mindfulness, and relaxation exercises can help calm your mind and body during stressful situations. One of the important steps that can be taken is to Seek Support, Talking to friends, family, or a mental health professional can provide valuable perspectives and support. Sometimes, sharing your fears can alleviate their intensity and offer practical solutions or encouragement. Embrace Growth Mindset, Adopt a growth mindset by viewing challenges and fears as opportunities for personal development. Recognize that overcoming fear is a learning experience and that setbacks are a natural part of the process.

By applying these strategies, adults can better manage and overcome their fears, paving the way for a more fulfilling and courageous life.

# THE JOURNEY BEYOND: EXPLORING THE WORLD THROUGH TRAVEL AND STUDY ABROAD PROGRAMS

**Introduction:** For many college students, the idea of studying abroad is both exciting and daunting. The allure of immersing oneself in a new culture, learning a new language, and gaining a global perspective can be a transformative experience. In this article, we'll explore the benefits, challenges, and personal growth that come with travel and study abroad programs, as well as tips for making the most of your time abroad.

**Why Study Abroad?** Studying abroad offers numerous benefits, both personal and academic. It provides students with a chance to experience different educational systems, expand their global network, and gain valuable life skills. Many students return with improved language proficiency, a broader worldview, and a newfound sense of independence. Employers often value the adaptability, cultural awareness, and problem-solving skills that come from international experiences.

**Popular Destinations and Programs:** Depending on your field of study and interests, there are a variety of destinations that might appeal to you. Europe remains a top choice due to its rich history and accessible travel between countries. Asia offers a blend of ancient cultures and cutting-edge technology, while South America provides opportunities to learn Spanish or Portuguese and explore diverse ecosystems. Some programs focus on specific academic disciplines, such as art history in Italy, business in China, or environmental science in Costa Rica.

**Overcoming Challenges:** While studying abroad is rewarding, it comes with its own set of challenges. Culture shock, language barriers, and homesickness are common, but they are also opportunities for personal growth. Adapting to a new environment helps build resilience and empathy, qualities that are valuable in any career. Financial considerations can also be a concern, so it's important to research scholarships, grants, and budget-friendly travel options.

**Tips for Making the Most of Your Experience:**

**1. Embrace the Local Culture:** Engage with the community by attending local events, trying regional cuisines, and participating in cultural activities.

**2. Stay Open-Minded:** Be prepared to encounter different customs and perspectives. This openness will enrich your experience and help you build meaningful connections.

**3. Document Your Journey:** Keep a journal, blog, or vlog to capture your experiences. This not only helps you reflect on your time abroad but also creates a valuable keepsake.

**4. Balance Academics and Exploration:** While it's important to stay on top of your studies, make sure to explore your surroundings and travel to nearby cities or countries during weekends or breaks.

**5. Stay Connected with Home:** Regularly updating family and friends about your experiences can help alleviate homesickness and keep you grounded.

**The Long-Term Impact:** The impact of studying abroad often extends well beyond the duration of the program. Many students find that their experience abroad influences their career choices, enhances their intercultural competence, and fosters a lifelong love of travel. The memories and friendships made during this time often become a cherished part of one's personal history.

**Conclusion:** Studying abroad is more than just an academic pursuit; it's a journey of self-discovery and growth. Whether you're exploring the cobblestone streets of Europe, the bustling markets of Asia, or the breathtaking landscapes of South America, the experience will leave a lasting impression. If you have the opportunity to study abroad, seize it – the world is waiting to be your classroom.

# CAREER DEVELOPMENT CENTER

The Career Development Center (CDC) is dedicated to empowering students to navigate their career paths successfully. This report highlights the key initiatives, achievements, and statistics for the academic year 2023-24.

## Mission and Vision:

**Mission:** To equip students with the necessary tools and opportunities to achieve their professional goals.

**Vision:** To be a leading center fostering career readiness and facilitating meaningful connections between students and the professional world.

## Services Offered:

**Career Counseling:** Personalized sessions to assist students in career planning and decision-making.

**Workshops and Seminars:** Programs focusing on resume building, interview skills, and job search strategies.

**Internship and Job Placement Assistance:** Connecting students with potential employers and internship opportunities.

**Career Fairs:** Organizing events that bring together students and a diverse range of employers.

## Highlights of the Year:

**Inaugural Open House:** Hosted the first-ever CDC Open House, attracting 300+ students to explore our services.

**Career Advocates Program:** Launched a program training 20+ faculty and staff to integrate career guidance into their interactions with students.

**Internship Roadshows:** Collaborated with various colleges to bring 50+ employers to campus, benefiting 400+ students through tailored internship events.

**Learning Aligned Employment Program (LAEP):** Supported nearly 200 students, contributing almost \$1 million in wages, through research positions on campus.

## Student Engagement and Impact:

**Counseling Sessions:** Conducted over 400+ one-on-one career counseling sessions.

**Workshop Participation:** Hosted many workshops with a total attendance of 457 students.

**Internship Placements:** Assisted 500+ students in securing internships across various industries.

**Career Fair Attendance:** Over 600+ students and 50+ employers participated in our annual career fair.

## Employer Engagement:

**New Partnerships:** Established relationships with 100+ new companies, expanding opportunities for students.

**On-Campus Recruitment:** Hosted 200+ employers for on-campus interviews and information sessions.

**Alumni Networking:** Leveraged alumni connections to provide mentorship and job opportunities for current students.

## Challenges and Future Plans:

### Challenges:

Adapting to the evolving job market and aligning student skills with industry demands.

Ensuring equitable access to opportunities for all students.

### Future Plans:

Enhance virtual career services to reach a broader student audience.

Develop specialized programs targeting emerging industries and skill sets.

Strengthen collaborations with academic departments to integrate career readiness into the curriculum.

**Conclusion:** The Career Development Center remains committed to supporting students in their professional journeys. Through continuous improvement and collaboration, we aim to provide unparalleled services and opportunities in the coming years.

## Training

- Career Counselling
- Career Skills
- Tech Skills
- Industry Engagement

## Placement

- Campus Placement Drives
- Mega Job Fairs / Pool Drives
- Internships + Pre-Placements
- International Placements

## Career Counselling

- 1 • Higher Studies Counselling
- 2 • Career Planning
- 3 • Placement Preparatory Counselling
- 4 • Personalised Career Counselling
- 5 • Entrepreneurship Counselling
- 6 • Competitive exam preparation

## Career Skills

### Training Modules

- Quantitative Aptitude and Logical Reasoning
- Soft skills (Body Language, Professional Grooming & Etiquettes)
- VARC (Verbal Ability and Reading Comprehension)
- Personality Development
- Group Discussions
- Presentation Skills
- Personal Interviews

## Technical Skills

### Program Offerings

- Credit Based Courses**  
The curriculum includes audit-based courses covering various subjects. Competitive Coding (COD001).
- Value Added Skills**  
Students develop valuable skills through workshops and boot camps. Full Stack development workshops, AIML Trainings, IOT Skills.
- Placement Supports**  
The university provides comprehensive placement support to students.
- Skilling Partners**  
Collaborations with industry partners enhance student skills. AD Consultants pvt ltd. , Mang ERP Ltd. , JK Cements, ICT (Ultratech group ).

### Placement Support

#### Company Specific Placement

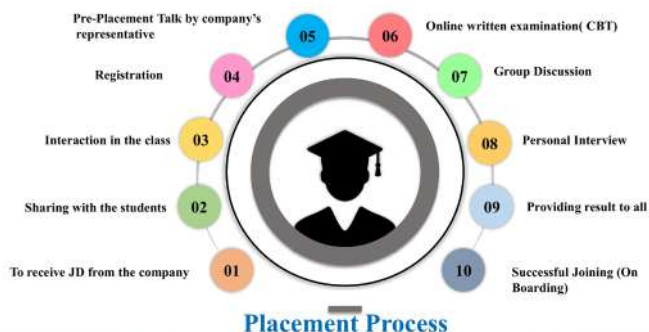

The university offers company-specific placement training programs.

#### Mock Tests

Students participate in mock tests to prepare for job interviews.

#### Student Profiling

The university profiles students to match them with suitable companies.

### Training Overview

- Courses Embedded in Curriculum
- Boot Camps
- Profile Based Trainings
- Company Specific Trainings

### Training Support

**Company Specific Curriculum**  
Using standardized curriculum training is provided to students to cover all aspects of placement.

**Group Discussion & Mock Interviews**  
Students engage in GD & mock interviews as part of their preparation for placement.

**Boot camp**  
CDC conducts intensive training before the placement starts.

## Industry Engagement

## KRMU INTERNATIONAL RELATIONS

Our esteemed university has taken steps in fostering global connections and opportunities. Since the re-establishment of the International Relations Office in 2023, our university has been committed to nurturing a vibrant international community and providing invaluable resources for our students' academic and professional growth. Through a series of seminars, we have diligently raised awareness about study abroad and career opportunities, empowering our students to explore the world beyond borders. Initiatives are also being taken to establish discipline-based networks, fostering meaningful connections with peers and institutions worldwide.

The International Relations Office has been instrumental in offering comprehensive support and advisory services to our students, including personalized counselling and guidance sessions. We have provided free training programs to equip our students with essential knowledge and skills, including free on campus preparatory sessions for the IELTS examination. Our faculty and students have actively participated in prestigious events hosted by esteemed organizations such as the Association of Indian Universities, EducationUSA, the British Council, the Embassy of the People's Republic of China, and various foreign universities. Furthermore, we take pride in offering short immersion programs

that allow foreign students to explore India's rich heritage and culture first-hand. This year we have also launched 'Global Career Enhancement Certification Programs' in collaboration with a German university and the Sector Skills Council, Ministry of Finance, Government of India. Additionally, we are delighted to introduce new short immersion programs in countries like Australia, the UK, Singapore, Malaysia, Dubai, and Poland, tailored specifically for students in computer science, architecture, and management disciplines. In our pursuit of global engagement, we have conducted a successful summer school on business and management at the University of Portsmouth, UK, in August 2023. Moreover, we have established over 15 active agreements and engagements with prestigious institutions such as Middlesex University UK, the University of Houston USA, the University of Nebraska-Lincoln USA, the University of Galway Ireland, the University of Bath UK, the University of Sydney, the University of South Wales, Murdoch University, and Deakin University, to name a few.

The cohort of our students has recently completed an Immersion program at Middlesex University-UK, Dubai Campus in November 2024.

We embrace the spirit of global citizenship and continue to strive for excellence in all our endeavours.

## K.R. MANGALAM ENTREPRENEURSHIP AND INCUBATION CENTRE (KEIC FOUNDATION)

The K.R. Mangalam Entrepreneurship and Incubation Centre (KEIC Foundation) was formally established as a Section 8 company on June 26, 2023. Since its inception, the KEIC Foundation has been committed to promoting innovation and entrepreneurship among students, offering a comprehensive platform for aspiring entrepreneurs to bring their ideas to fruition. The KEIC facility spans over 7,500+ square feet of built-up area, including the KEIC Co-Working Space, Brainstorming Room, Meeting Room and Design Thinking Lab, which fosters a culture of creativity and collaboration. The successful MSME accreditation empowers the institute to become a host Institution.

In alignment with the National Innovation and Startup Policy of the Ministry of Education, the KEIC policy has been carefully crafted to support and nurture startups and innovation. Furthermore, created Standard Operating Procedures (SOPs) for KEIC Mart - by and for students/Incubates dedicated to fostering entrepreneurship.

Taught the open elective course, "KEIC Entrepreneurial Operations: Launching a Startup," equips students with practical insights into startup development, reinforcing the institute's commitment to shaping the next generation of entrepreneurs.

### Vision and Mission

To catalyze entrepreneurial excellence by empowering students to create innovative solutions that address societal IT challenges and drive sustainable impact.

Foster a thriving entrepreneurial ecosystem that inspires creativity, provides resources and mentorship, and supports students in launching successful businesses and social enterprises.

Since its establishment, KEIC Foundation has conducted 300+ significant activities, highlighting its commitment to fostering innovation and entrepreneurship.

### Key Highlights

- Offered SEED Grant to 20+ startups
- 3-star ranking Awarded by IIC, Ministry of Education for the Year 2022-23
- Recognized as a Host Institute by MSME.
- Two startups received a 15 Lakhs grant under MSME Women Hackathon 3.0
- Awarded 1,50,000+ prize money in Hackathon and 50,000+ in Ideathon.
- Major Grants Secured for Societal Upliftment: 1.56 Crore from DST for livelihood generation projects
- 20 Lakhs 38 thousand from ICSSR for research on the Katputli Community
- Successfully incubated 20+ innovative ideas
- An Incubated startup has pitched in Shark Tank
- The startup progressed in the Samsung Solve for Tomorrow competition
- Mentor Institute of IIC
- Associate Member of SIDBI- Delhi NCR Chapter

## FOCUS ON NSS

### Regular Activities

Activities conducted throughout the year focus on various social issues such as health, education, environment, and community development. These include campus projects, community visits, awareness drives, and other initiatives aimed at community betterment.

### Special Camping Programs

We organized a 7-day camp in adopted villages during vacations, with a focus on specific themes such as youth for clean environment, health awareness, and rural development.

These camps provide a platform for students to live and work with the community, understanding their challenges and contributing to their community development and unity.

## SOCIAL OUTREACH PROGRAMS

### MERI MATI MERA DESH CAMPAIGN

“Flag distribution and Prabhat Pheri” as a part of Meri Mati Mera Desh Campaign was organized at Ghamroj Village, Sohna.

Flag distribution in Ghamroj village

Flag distribution in Government School, Ghamroj

### PLANTATION DRIVE

During Van Mahotsav Week, several tree planting activities were organized in collaboration with Smiling Tree Foundation at K. R. Mangalam University and nearby villages-Ghamroj, Garhi Wazidpur, Lakhuwas and Abheypur Village.

Plantation drive in Ghamroj village

## CLEANLINESS DRIVE

This event was conducted under the Swachhata Pakhwada – Swachhata Hi Seva (SHS) campaign in Lakhuwas village. The initiative aimed to honor Mahatma Gandhi's principles of cleanliness by promoting a cleaner and more hygienic environment.

## ESSAY WRITING COMPETITION AND AWARENESS SESSION IN GOVT. SCHOOL, ABHEYPUR TO COMMEMORATE NATIONAL UNITY DA.

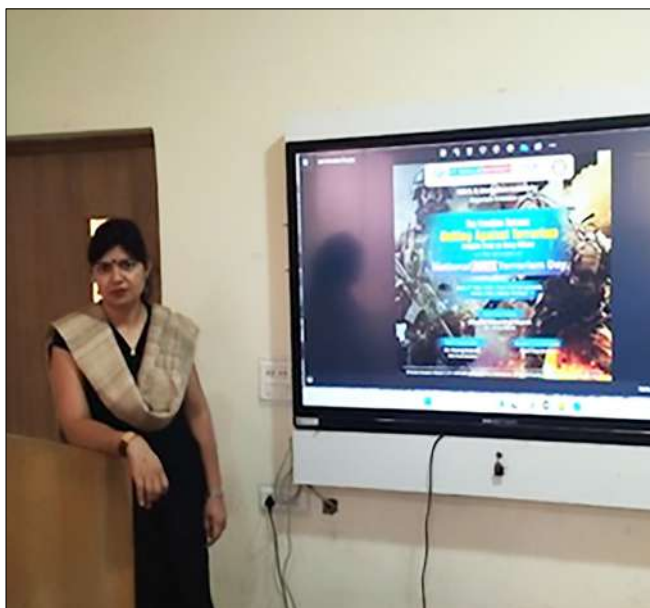

## NUKKAD NATAK ON NATIONAL GIRL CHILD DAY' IN BERKA VILLAGE

## ANTI-TERRORISM DAY

## YOUTH RED CROSS

At K.R. Mangalam University, the Youth Red Cross has been established to inspire young students with a passion for serving society. The primary goal is to instill in them the core values of the Red Cross, fostering a spirit of selfless service and volunteerism. By training zealous young students in the fundamental principles of the Red Cross, the program ensures that they remain resilient and motivated to serve vulnerable communities locally and globally. YRC at K.R Mangalam University carries out its social mission under the framework of the seven fundamental principles of the Red Cross: Humanity, Impartiality, Neutrality, Independence, Voluntary Service, Unity, and Universality.

### Objectives

The Youth Red Cross at K.R Mangalam University, aims to prepare the student volunteers with the fundamental principles of the Red Cross helping them remain calm, energetic, and unwavering while developing the elements of quiet self-sacrifice when disasters strike humanity. With this in view, the Youth Red Cross at K.R Mangalam University endeavors to:

1. Voluntary Blood Donation
2. Promotion of Health & Hygiene
3. Engage the community in awareness drives for a green and clean environment, the prevention of endemic diseases, etc.
4. Awareness Drives on Environment & Climate Change and endemic diseases
5. Disaster Preparedness, training volunteers to deal effectively with pre-, during & post-disaster scenarios.
6. Capacity Building of Youth Red Cross Volunteers
7. First Aid Training Programme

## ALUMNI SUCCESS STORIES

Beginning my journey at K.R. Mangalam University was one of the most transformative decisions of my life. From the very moment I set foot on the campus, I knew I had entered a realm brimming with boundless opportunities, intellectual growth, and innovative spirit. The faculty, with their vast experience and unwavering dedication, became my guiding lights, sparking my curiosity and helping me develop a profound understanding of pharmaceutical sciences.

**Palak Jain**

2019-2023 Batch

The university's science laboratories and world class facilities provided invaluable hands-on experience, instilling in me the confidence to navigate real-world challenges. Beyond academics, K.R. Mangalam ensured that student life was rich and fulfilling, with extracurricular activities and competitions that honed my creativity, leadership, and teamwork skills. The meditation classes offered here were an added treasure, helping me cultivate mindfulness and inner peace—crucial elements for both academic success and personal well-being. The seamless bus services and the canteen, which served as a social hub, added to the convenience and joy of campus life. Whether engaging in cultural festivals, attending academic seminars, or participating in health awareness campaigns, every moment at K.R. Mangalam was enriching and memorable.

Today, I am proud to be pursuing my M.Pharmacy at Delhi Pharmaceutical Sciences and Research University, a path made possible by the solid academic foundation I received at K.R. Mangalam. K.R. Mangalam University is more than just an institution—it is a temple of education where divine wisdom fosters personal and intellectual growth. I am deeply grateful for the guidance and knowledge that have empowered me to pursue my dreams with unwavering faith and purpose.

My journey through the BPT programme was one of my most treasured experiences of my life. The most valuable aspect was the clinical exposure where we got to improve our hands on skills. My transformation from a student to a therapist has been quite incredible. I am proud to say that my education at KR Mangalam University laid a strong foundation for my professional career. I am now working in a well-known rehabilitation center, where I get to apply the knowledge and skills I acquired during my studies. The university not only shaped me into a skilled physiotherapist but also instilled a sense of empathy and commitment to patient care that guides me every day.

**Dharna**

BPT BATCH-2019

I am forever grateful to KR Mangalam University for shaping my career and look forward to staying connected with the university community in the future."

## KR MANGALAM HOSTEL LIFE

Hostel life in Gayatri and Vivekananda hostels is a vibrant and memorable experience, filled with joy and camaraderie. The environment is lively, with numerous events organized throughout the year, including cultural festivals, sports competitions, and adventurous trekking expeditions. These activities foster a strong sense of community and keep everyone engaged.

Beyond the organized events, there are plenty of recreational opportunities available, such as chess, carrom, badminton, and other fun indoor and outdoor games. Whether it's relaxing in the common areas, participating in group activities, or competing in friendly matches, there's always something to do.

Even the daily routines, from the mess to the rooms, are cherished as they become part of the shared journey. The bonds formed, the laughter shared, and the memories created truly make hostel life in Gayatri and Vivekananda a unique and enjoyable chapter in life.

## K.R. MANGALAM UNIVERSITY MARKS SUCCESSFUL 6TH CONVOCATION

On 25th February, 2024, K.R. Mangalam University organized its 6th Convocation at its lush green campus, Sohna Road, Gurugram. The Governor of Haryana, Shri Bandaru Dattatraya, graced the event as the chief guest and addressed the ceremony. He shared his perspective on the importance of dedication, discipline, devotion, and sacrifice and encouraged students to be useful to the community in the field of education and society at large. He highlighted the importance of the National Education Policy 2020 and appreciated the University for implementing the key elements of the National Education Policy: innovation, technology and research.

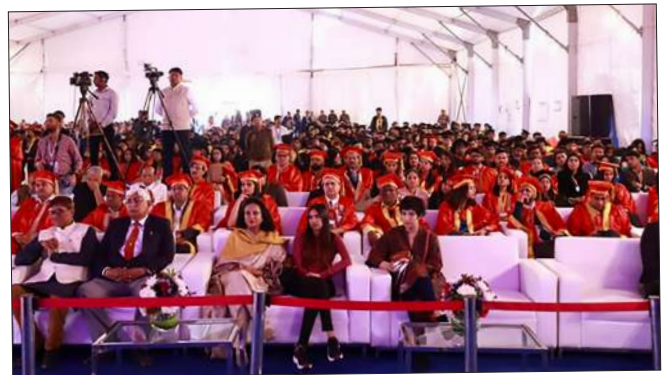

Glimpses of Convocation 2024

## KRMU CELEBRATES CLASS OF 2024: A LEGACY OF RESILIENCE AND EXCELLENCE

As another academic year draws to a close, K.R. Mangalam University bids a fond farewell to its graduating class. These bright young minds have spent years honing their skills, expanding their knowledge and preparing for the challenges that lie ahead.

The Class of 2024 has demonstrated remarkable resilience, particularly in navigating the unprecedented challenges posed by the global pandemic. They adapted to new learning methods, embraced technology, and maintained their academic excellence despite the obstacles. Throughout their time at KRMU, these students have left an indelible mark on our campus. From groundbreaking research projects to community outreach initiatives, they have exemplified the values of innovation, leadership, and social responsibility that KRMU holds dear. Their achievements in academics, sports, and extracurricular activities have set a high bar for future generations.

As they prepare to embark on new journeys, we are confident that our graduates are well-equipped to make significant contributions to their chosen fields. The critical thinking skills, practical knowledge, and ethical foundations they have developed at KRMU will serve them well in their future endeavours.

To our departing students: remember that your relationship with KRMU doesn't end here. As you join our esteemed alumni network, we encourage you to stay connected, share your successes, and give back to your alma mater. On behalf of the faculty, staff, and administration, we extend our heartfelt congratulations to the Class of 2024. Your perseverance, creativity, and passion have inspired us all.

## Glimpses of Farewell 2024

## **K.R. Mangalam University Welcomes Fresher's with Enthusiastic Orientation Program 'Aarambh 2024: Embracing New Horizons'**

K.R. Mangalam University hosted a vibrant and grand orientation program titled 'Aarambh: Embracing New Horizons' to welcome the new batch of students. The event, filled with enthusiasm and excitement, marked the beginning of their higher education journey.

The chief guest for the event was Mr. Suresh P. Prabhu, former Railway Minister, who addressed the students with an inspiring message. He emphasized the importance of nurturing innovative ideas and thinking for a bright future, saying, "Today marks the beginning of your higher education journey. For a bright future, it is essential that you start nurturing advanced ideas and innovative thinking."

The orientation was also graced by distinguished guests, including Mr. Diwakar Payal, Head of Sales and Marketing - Ambuja and ACC Cement, and Prof. Victor Gambhir, Vice-Chancellor of JECRC University, Jaipur. The event was hosted by Padma Shri Prof. Dinesh Singh, Chancellor of K.R. Mangalam University, who spoke about the role of education in fostering self-awareness and the importance of nurturing new ideas. He further emphasized that the primary goal of education is to recognize oneself, a mission that the university wholeheartedly supports.

The program also saw the presence of Mr. Yash Dev Gupta, President of the Sponsoring Body, University President Mr. Abhishek Gupta, Mr. Rohit Gupta, Vice-Chancellor Prof. Raghvir Singh, and Registrar Dr. Rahul Sharma, along with heads of various schools and faculty members, who engaged in interactive discussions with the new students.

The event began with the traditional lighting of the lamp and Saraswati Vandana, followed by a warm welcome from Vice-Chancellor Prof. Raghuvir Singh, who expressed his pride in the students' arrival. He assured them that the university would provide opportunities for holistic development through academics, practical learning, and various cultural and skill development programs. "Children have aspirations, and parents have high expectations from them. Never let these expectations wane. As a university, we will make every effort to help you achieve your dreams," Prof. Singh added. The orientation concluded with a vote of thanks from Dr. Rahul Sharma, the Registrar, who extended gratitude to the guests, students, parents, faculty members, and media for their presence, marking a successful and inspiring start to the academic year.

# KRMU 3.0 Hackathon: A Technological Odyssey of Innovation and Collaboration

In a riveting display of technological prowess, KRMU 3.0 Hackathon unfolded as more than just a coding competition. It metamorphosed into an odyssey of creativity, presenting participants with an unparalleled platform to showcase their brilliance and ingenuity. Distinguished by its multifaceted approach, KRMU 3.0 transcended the conventional boundaries of Hackathon. Beyond coding, it emerged as an adventure, an opportunity, and a stage where innovation reigned supreme.

Among the pivotal highlights of the event were the enriching workshops and sessions led by esteemed IT advisors, offering participants a unique opportunity to glean insights from the industry's best minds. Networking thrived at KRMU 3.0, with participants connecting with a vast array of sponsors, community partners, and industrial mentors, fostering collaboration and exchange of ideas.

The allure of mega prizes worth Rs. 3 Lakhs spurred participants to push their limits across diverse themes such as Artificial Intelligence, Machine Learning, Blockchain, Augmented Reality, Virtual Reality, Cloud Computing, and IoT.

As the curtains drew on the event, it stood as a testament to the boundless talent, innovation, and unwavering spirit of the participants. Their dedication and creativity set new benchmarks in technology and problem-solving, resonating with the ethos of the hackathon. Heartfelt congratulations echoed for the winners and participants, celebrating their achievements in this technological odyssey.

# KRMU CELEBRATES INTERNATIONAL WOMEN'S DAY WITH HEALTH INITIATIVES AND EMPOWERMENT SEMINARS

On the occasion of International Women's Day, K. R. Mangalam University's various schools conducted multiple events dedicated to empowering and celebrating women from diverse spheres of life.

The School of Physiotherapy and Rehabilitation Sciences (SPRS), in collaboration with the Health Society, organised a Health Camp on 7th March, 2024. The event began with an insightful session titled 'Role of Physiotherapy in Women's Life Cycle', delivered by Dr. Kangana Juneja Kansal (PT), Assistant Professor and OPD in-charge at SPRS. The Camp was inaugurated by Dr Anjana Singh, Dean of Student Welfare, Dr Mamta Shankar, Dean of SPRS, and Dr Deepa Jaiswal Garg, an experienced gynecologist.

The Health Camp offered gynaecological consultations, physiotherapy assessments, and discounted blood tests. This initiative not only provided crucial health check-ups but also addressed prevalent taboos and myths surrounding women's health, empowering attendees to prioritize their well-being.

Extending the celebrations beyond the university, Prof. Tanaya Verma, Dean of School of Architecture and Design (SOAD), along with female faculty members and students, attended a women's day special seminar on 'Right of Excellence'. The event, organized by The Times of India in Gurugram, featured keynote speaker Dr. Kiran Bedi, who emphasized women's resilience and achievements across various domains.

Dr. Bedi's insights set the stage for dynamic exchanges, inspiring attendees to harness their potential and pursue their aspirations fearlessly. The event included panel discussions featuring women entrepreneurs and CEOs, providing valuable insights into leadership, entrepreneurship, and overcoming professional challenges.

Both events served as important reminders of women's indomitable spirit and contributions, igniting inspiration and empowerment that promises to illuminate the path towards a more equitable and prosperous future.

## K.R. MANGALAM UNIVERSITY HOSTS **PADMA SHRI KANGANA RANAUT** FOR ENGAGING DEBATE AND INSIGHTFUL SESSION

K.R. Mangalam University had the privilege of welcoming Padma Shri Kangana Ranaut, a 4-time National Film Awardee and Hon'ble Member of Parliament, to its campus. The event commenced with a warm reception by Dr. Rahul Sharma (Registrar), Dr. Anjana Singh (Dean, Student Welfare), Dr. Anshul Saluja (Associate Dean, Student Welfare), and Dr. Varuna Tyagi (Dean Academics), marking a significant occasion for the university.

The highlight of the visit was an engaging and thought-provoking debate on the topic of National Emergency, where Kangana Ranaut explored whether this historical chapter was a boon or a bane for India. The discussion prompted students to critically examine this pivotal moment in Indian history.

Following the debate, Kangana Ranaut shared valuable insights into her upcoming film *Emergency*, which is based on the Emergency period in Indian politics. The actress, producer, and filmmaker provided students with a behind-the-scenes look at the making of the film

and her experiences in the entertainment industry.

In addition to discussing her work, Kangana offered career advice to the students of K.R. Mangalam University, encouraging them to pursue their passions with dedication, resilience, and creativity, especially in the dynamic fields of filmmaking and media.

The event was an enriching experience for students, inspiring them to think critically about India's history and the role of media and cinema in shaping public discourse.

# K.R. MANGALAM UNIVERSITY HOSTS ENGAGING WORKSHOP WITH RJ NAVED ON RADIO AND DIGITAL MEDIA

The School of Journalism and Mass Communication (SJMC) at K.R. Mangalam University organized a dynamic and interactive workshop featuring the renowned RJ Naved, a celebrated radio jockey from Radio Mirchi 98.3 FM and founder of Purple Wings Entertainment. The offline session took place in Room No. A-213, A Block, with over 150 enthusiastic students in attendance. Coordinated by Prof. (Dr.) Amit Chawla and Dr. Aaqib Anwaar Butt, the workshop was a testament to SJMC's commitment to providing students with hands-on learning experiences and a nuanced understanding of the media landscape.

RJ Naved captivated the audience with his wit and wisdom, sharing personal anecdotes and professional insights into the world of radio, podcasts, and social media. He emphasized the growing significance of digital platforms, highlighting how they coexist with traditional media. From his signature pranks to the

art of impactful podcasting, RJ Naved offered practical strategies for thriving in the ever-evolving media industry. The workshop encouraged students to embrace creativity, authenticity, and innovation in their approach to media. "This session was not just about learning the technicalities of radio and podcasts; it was about understanding how to connect with audiences and make a lasting impact," RJ Naved shared. The event aligned with SJMC's mission to prepare its students for real-world challenges by blending theoretical knowledge with practical expertise. Participants left the session inspired and better equipped to navigate the dynamic media environment.

The workshop underscored the university's dedication to fostering skill development and industry readiness among its students, setting a benchmark for future academic initiatives.

## K.R. MANGALAM UNIVERSITY CELEBRATES TEACHER'S DAY WITH JOYOUS TRIBUTE TO INSPIRING FACULTY

K.R. Mangalam University hosted a memorable Teacher's Day celebration that honored the dedication and hard work of its esteemed faculty members. The event, filled with energy and appreciation, brought together faculty, staff, and students for a joyful evening of performances, awards, and heartfelt tributes.

The celebration kicked off with lively dance performances by faculty members, showcasing their hidden talents. The performances were met with enthusiastic cheers from students and colleagues, setting a festive tone for the evening. A key highlight of the celebration was the award ceremony, which recognized faculty members for their exceptional commitment to teaching and their meaningful contributions to student growth and

academic excellence. Educators from each school were honored for their dedication and impactful teaching. Each award recipient received heartfelt applause and words of appreciation from their peers and students.

The evening continued with moving speeches and lively performances, creating a warm and celebratory atmosphere. The Teacher's Day event served as a fitting tribute to the educators of K.R. Mangalam University, acknowledging their invaluable role in shaping minds and inspiring future generations of students. The celebration was a testament to the university's deep appreciation for its educators and the significant impact they have on the academic and personal growth of their students.

## DELHI TIMES FASHION WEEK 2024

KR Mangalam University proudly showcased its exquisite collection, "Ethereal Threads," at Delhi Times Fashion Week 2024, captivating audiences with a seamless blend of tradition and innovation. This remarkable collection celebrated the rich heritage of Indian craftsmanship while embracing contemporary aesthetics, reflecting the evolving landscape of fashion. Each ensemble was a testament to the designers' creative vision, featuring vibrant designs, intricate detailing, and a modern interpretation of classic techniques.

The collection told a story of cultural legacy and artistic evolution, weaving together traditional textiles, handcrafted embellishments, and contemporary silhouettes. It encapsulated the designers' unique journey, where deep-rooted traditions met cutting-edge creativity, resulting in a breathtaking showcase of color, texture, and design. With "Ethereal Threads," KR Mangalam University reaffirmed its commitment to fostering innovation, sustainability, and excellence in fashion, leaving a lasting impression on the runway.

## STUDENT'S TESTIMONIALS

Community service has always been my forte, and giving back to the community has always been considered as a noble cause. K.R .Mangalam University has provided me the right platform through NSS, Red Cross and various other NGO's relentlessly promoting and working for community upliftment. It has played a substantial part in my character building, moral and ethical development. Engaging in such outreach activities not only empowered me but also helped in making a positive impact. Laying emphasis on grassroots efforts in building sustainable change, KRMU helped me strengthened my organizational skills.

KRMU provided me with plethora of opportunities to explore myself and to enhance my overall persona. It yielded me the backdrop to make equity between studies as well as extensive extension activities.

**B.A. (Hons/Hons with Research) Economics**  
**School of Humanities**

**Mr. Kartik Bhadwaj**  
BA (JMC), 2nd Year

I am Kartik Bhardwaj, a student of BAJMC (Journalism and Mass Communication). This university is providing me with exceptional knowledge to enhance my skills.

The infrastructure is excellent, and the faculty is incredibly supportive and helpful.

I am Chyeshta, currently pursuing BHMCT at the School of Hotel Management and Catering Technology. This institution has been providing me with invaluable hands-on experience through practical sessions, which have significantly enhanced my skills and confidence.

The daily classes focus on professional grooming and preparing me to excel in hotel interviews. The learning here goes far beyond textbooks—it has truly been transformative, equipping me with the knowledge and expertise needed to achieve my career aspirations.

I am deeply grateful for the comprehensive training and unwavering guidance provided by this university.

**Ms. Chyeshta**  
**BHMCT - 1st year**

Studying at K.R. Mangalam University has been an incredible experience. The diverse curriculum, interactive sessions, and supportive faculty have honed my skills and boosted my confidence. The university fosters a culture of excellence and innovation, helping me achieve my career goals. Truly a great place for learning!

**Ms. Somya Aggarwal**

**B.A. (Hons/Hons with Research) Economics  
School of Humanities**

As a third-year BHMCT student at K.R. Mangalam University, I would like to express my sincere gratitude to the university for providing exceptional infrastructure and e-learning resources. The practical knowledge I am gaining is greatly enhanced by the advanced machinery and equipment we use daily in kitchen, F& B service and Housekeeping. This hands-on experience not only helps me develop my practical skills but also deepens my overall understanding of the field. I am truly grateful for the opportunities and support the university has provided to help me grow both personally and professionally.
